7.1. List of support functions of each model 80

1. Introduction

KONICA MINOLTA V4 Universal Print Driver supports the new printing system V4 architecture that is available from Windows 8.

User Benefits

- **UI suitable for touch operation**
  KONICA MINOLTA V4 Universal Print Driver has a new UI that supports touch operation. It solves the problem that it is hard to operate when using a conventional driver with a tablet PC.
- **Windows Store Apps support**
  If you use a conventional driver with an OS of Windows 8 or later, the Microsoft Standard UI will be displayed on the Printing Preference when printing from the Windows Store Apps, and only the limited print setting can be used. The KONICA MINOLTA V4 Universal Print Driver supports Windows Store Apps, so you can use almost the same functions as desktop application printing.

2. Software Description

2.1. System requirements

KONICA MINOLTA V4 Universal Print Driver supports the following OS versions.

- Windows
  - Windows 8.1
  - Windows 10
  - Windows 11
  - Windows Server 2012 R2
  - Windows Server 2016
  - Windows Server 2019
  - Windows Server 2022

2.2. V4 UPD Components

KONICA MINOLTA V4 Universal Print Driver consists of three main types of component: UPD Core, Printer Extension (PE), and Windows Store Device App (WSDA). UPD Core is the core module of V4 UPD, and provides main functionality such as printing. Printer Extension is an application that generates the Printing Preferences screen when printing from desktop applications. It is provided in combination with UPD Core. Windows Store Device App is an application that mostly generates the Printing Preferences screen when printing from Windows Store Apps. It will be distributed via the Windows Store.

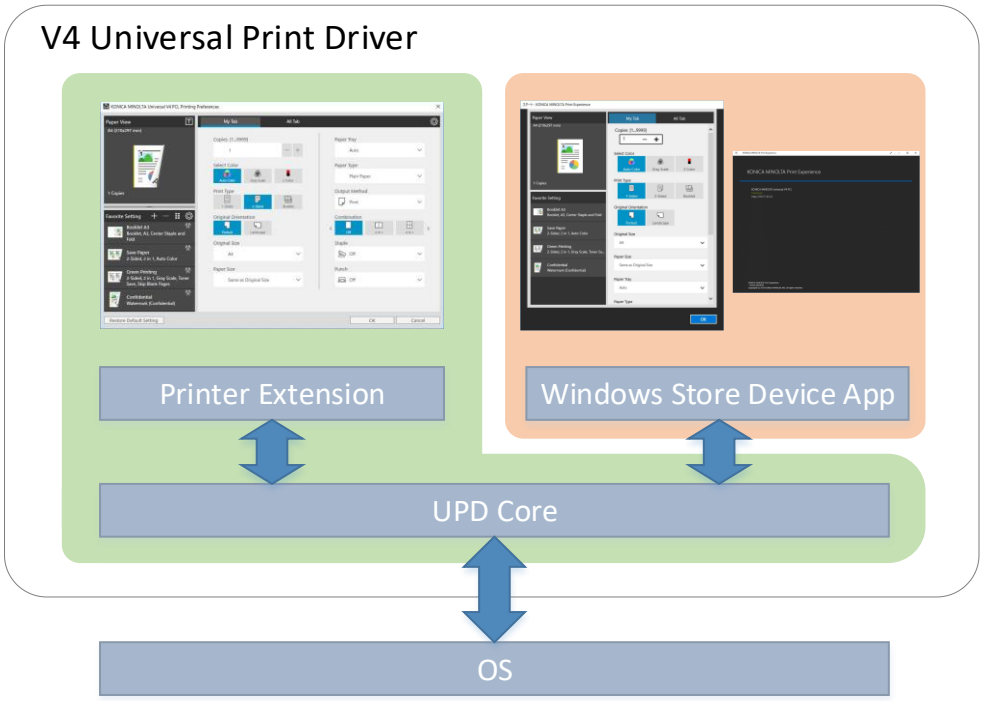

Figure 2.2-1 V4 UPD Components

2.3. Supported Models

The table below lists the KONICA MINOLTA products supported by V4 Universal Print Driver. Supporting functions of V4 Universal Print Driver are limited compared to normal drivers. See Error! Reference source not found. Error! Reference source not found. for details about supporting functions.

Table 2-1 KONICA MINOLTA products supported by V4 Universal Print Driver

*1: This is a common model. If a driver does not support by V4 Universal Printer Driver or a third-party device is selected, it is also possible to send print data. However, Konica Minolta cannot guarantee the printing results.

3. Installing, Uninstalling

3.1. Summary

By using the included installer/uninstaller (*1), you can easily install or uninstall the KONICA MINOLTA V4 Universal Print Driver.

*1: Execute "Setup.exe" in the case of x86 environment, "Setup64.exe" in the case of x64 environment. In the case of ARM64 environment, execute "SetupARM64_Win11.exe" for Windows 11 and "SetupARM64_Win10.exe" for Windows 10.

3.2. Install

3.2.1. Installing in “Network Search” by using the Included Installer

1. Execute “Setup.exe”.
2. Check the Software End User License Agreement, and if there are no problems, click “Agree”.

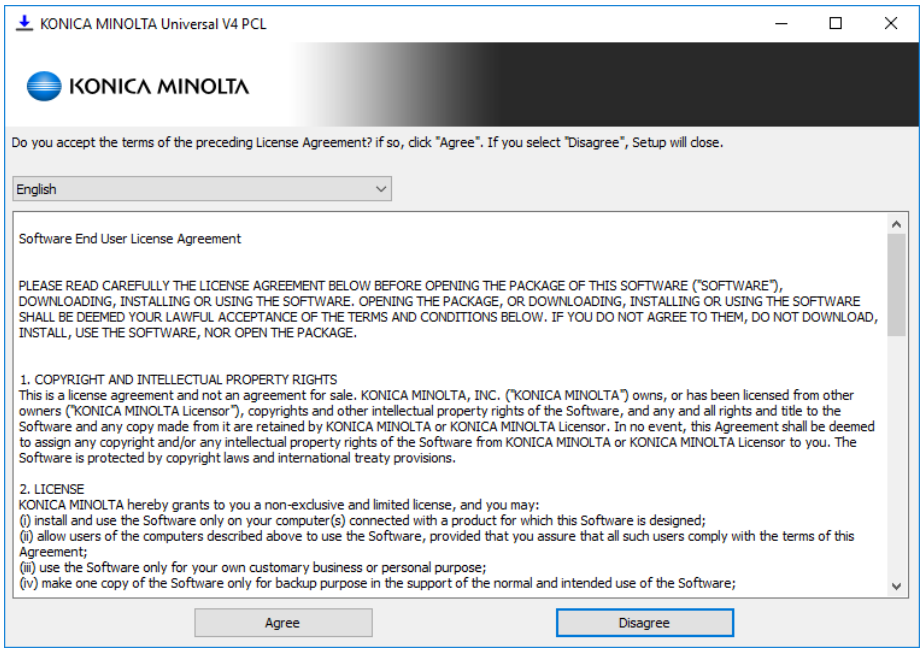

Figure 3.2-1 Software End User License Agreement dialog box

3. Click “Install (Network Search)”.

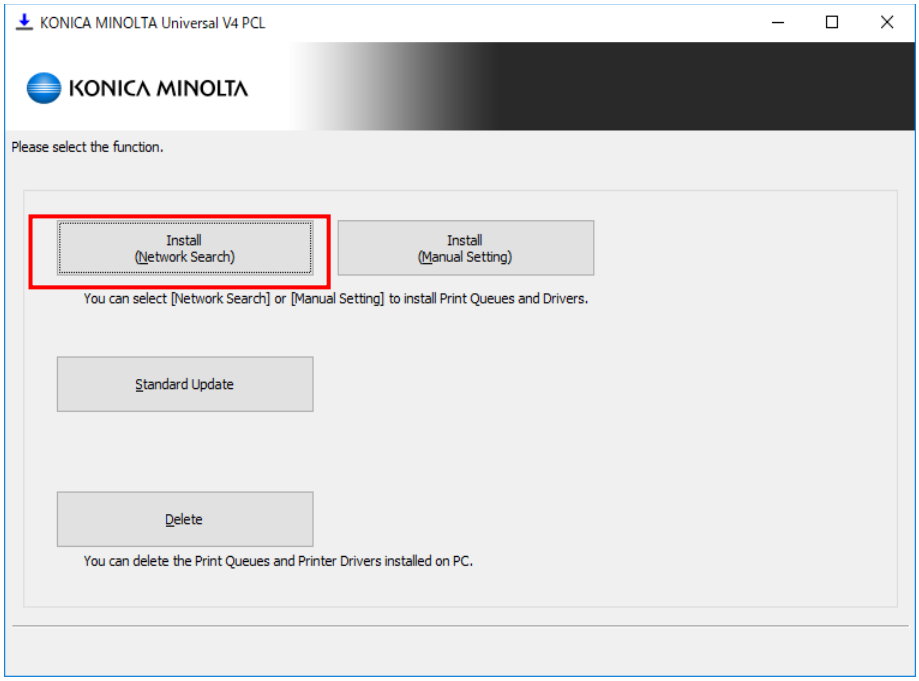

Figure 3.2-2 Function Selection dialog box

4. Starting search devices on the network. Click “Cancel” if you want to stop searching.

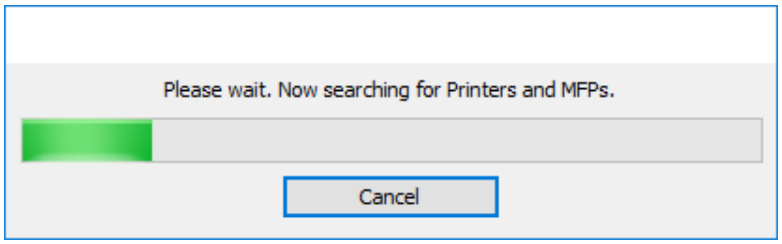

Figure 3.2-3 Searching dialog box

5. Devices found in the search will be displayed in a list.

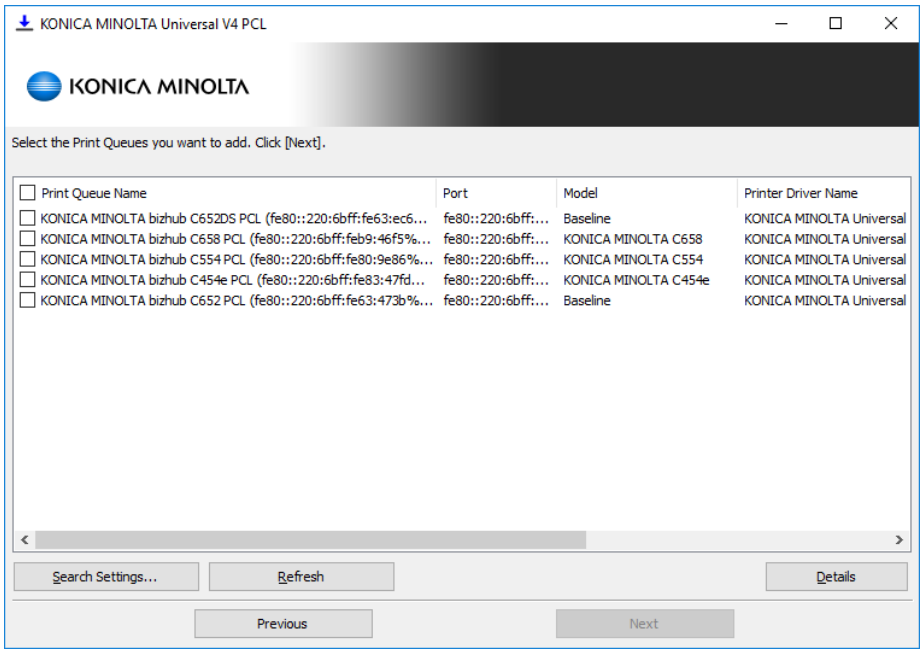

Figure 3.2-4 Device List dialog box

6. Settings such as Print Queue Name and Printer Driver Name will be displayed by clicking “Detail”. Check the device you want to install and click “Next”.

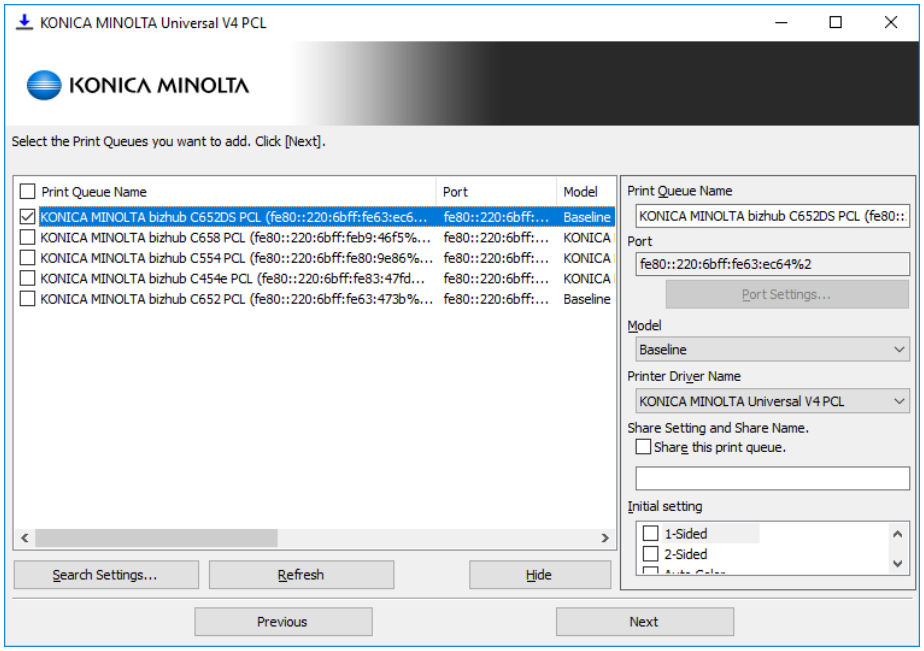

Figure 3.2-5 Device List dialog box (Detail)

7. Installation Confirmation dialog box is displayed. Click “Install” to start installing.

3.2.2. Installing in “Network Search” by using the Included Installer

1. Execute “Setup.exe”.
2. Check the Software End User License Agreement, and if there are no problems, click “Agree”.

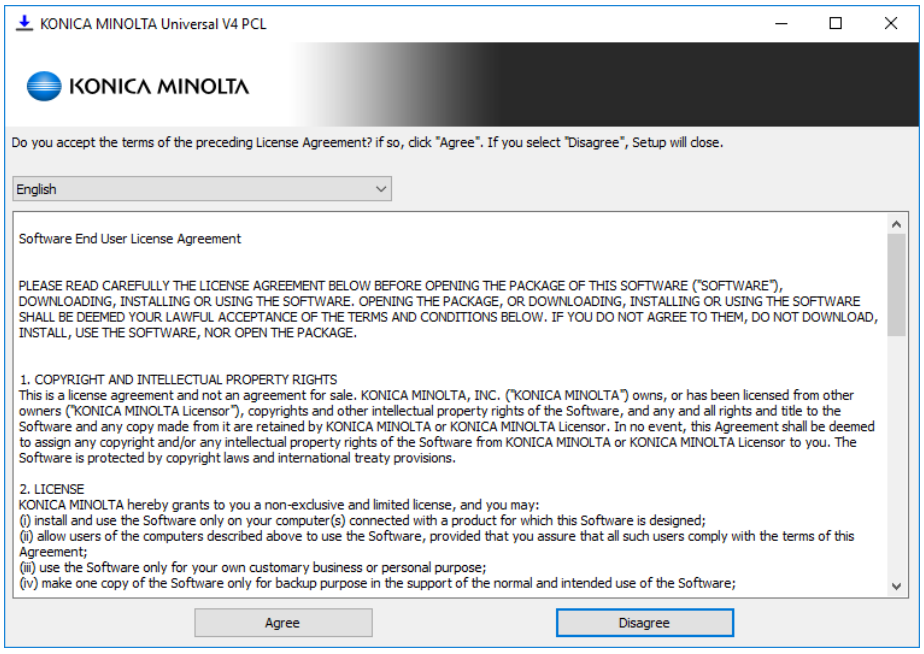

Figure 3.2-9 Software End User License Agreement dialog box

3. Click “Install (Manual Setting)”.

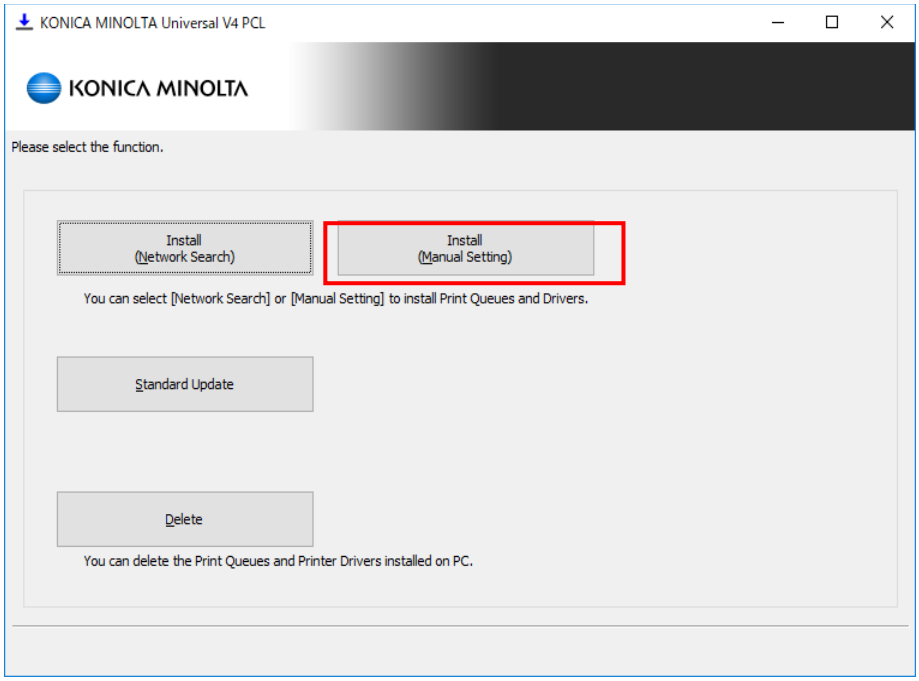

Figure 3.2-10 Function Selection dialog box

4. Install (Manual Setting) dialog box is displayed. Click “Add to list” at the bottom left to add a row to the list.

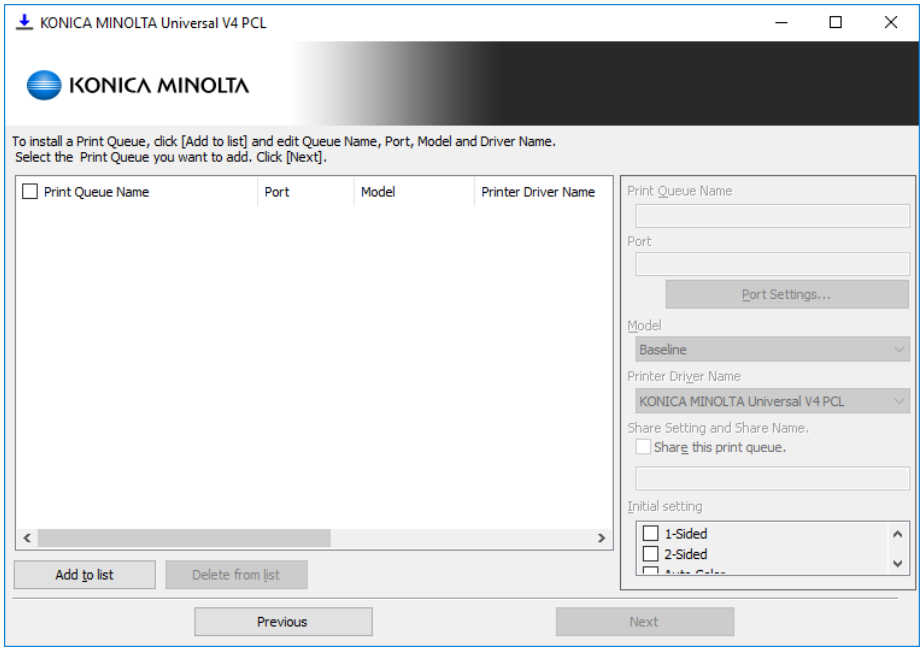

Figure 3.2-11 Install (Manual Setting) dialog box

5. Select the added row, and enter information such as Print Queue Name and Port on the right side of the setting dialog box. Make sure that you have checked on the beginning of the row you want to add the print queue and click “Next”.

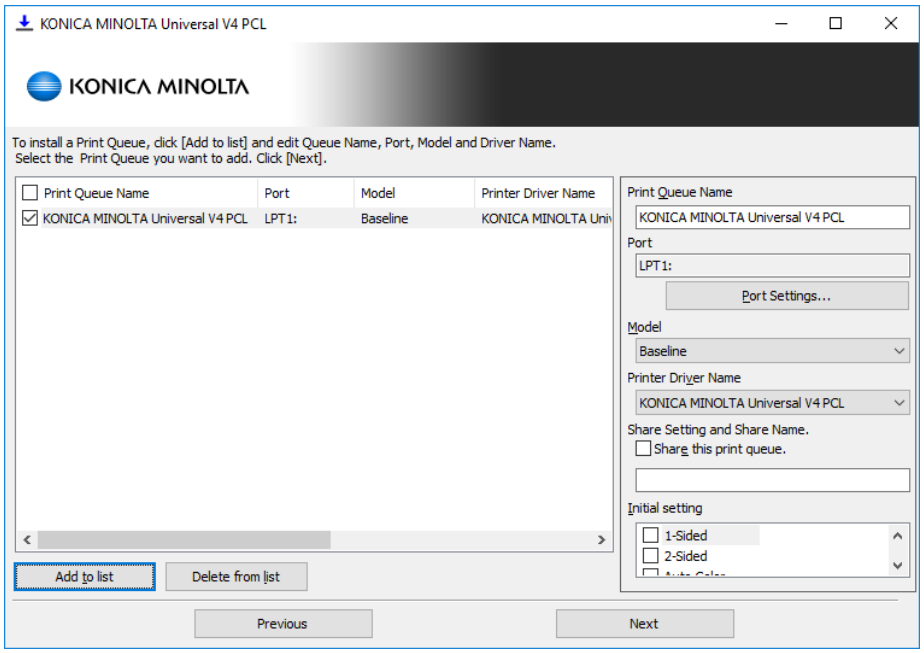

Figure 3.2-12 Install (Manual Setting) dialog box (continue)

6. The following procedure is same as procedure **7** and later of **3.2.1 Installing in “Network Search” by using the Included Installer**.

3.2.3. Manual Installation

Install the driver using the Windows “Add Printer” wizard.

1. Open the “Devices and Printers” folder and click the “Add a printer” button.
2. The Add Printer wizard starts. Click “The printer that I want isn’t listed”.

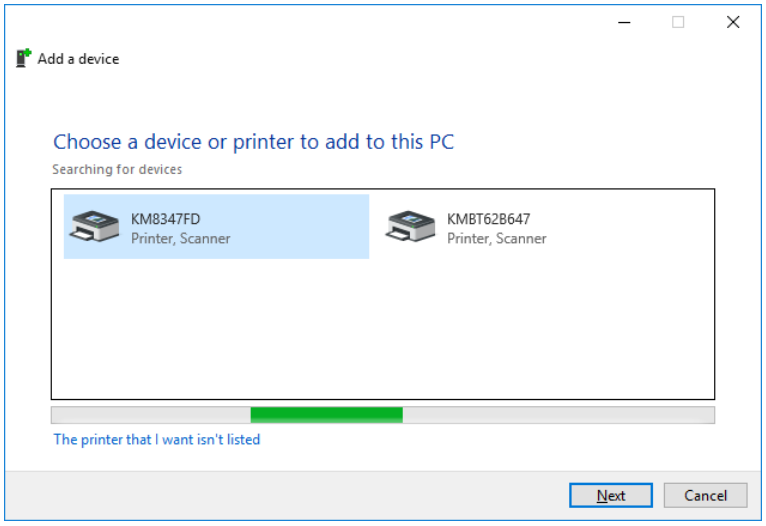

Figure 3.2-13 Searching for devices

3. If a port already exists, select “Add a local printer of network printer with manual settings” and then select an existing port. If not, select “Add a printer using a TCP/IP address or hostname” and click “Next”.

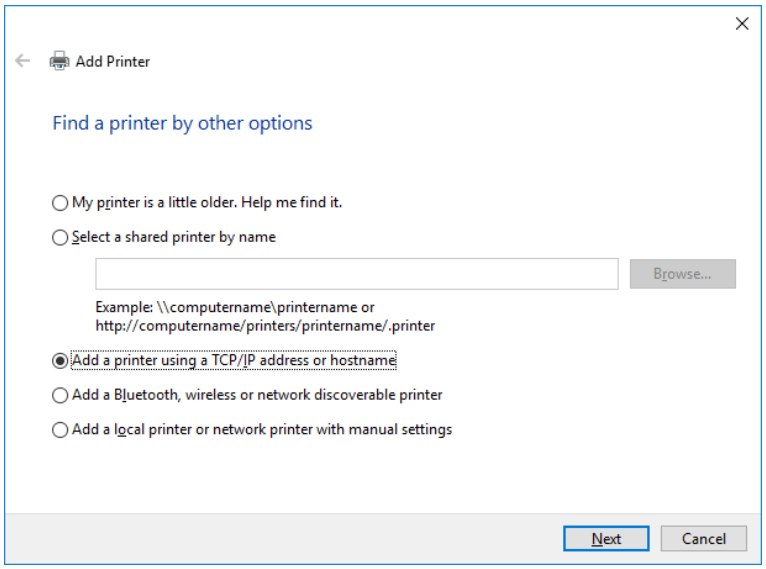

Figure 3.2-14 Find a printer by other options

4. Enter IP in the “Host name or IP address” field and press “Next”.

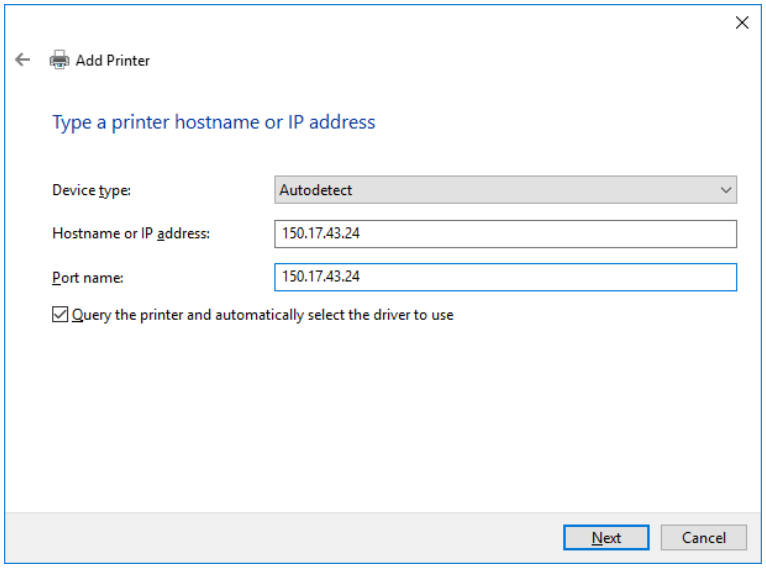

Figure 3.2-15 Type a printer hostname of IP address

5. Click “Have Disk”.

11. Installing printer.

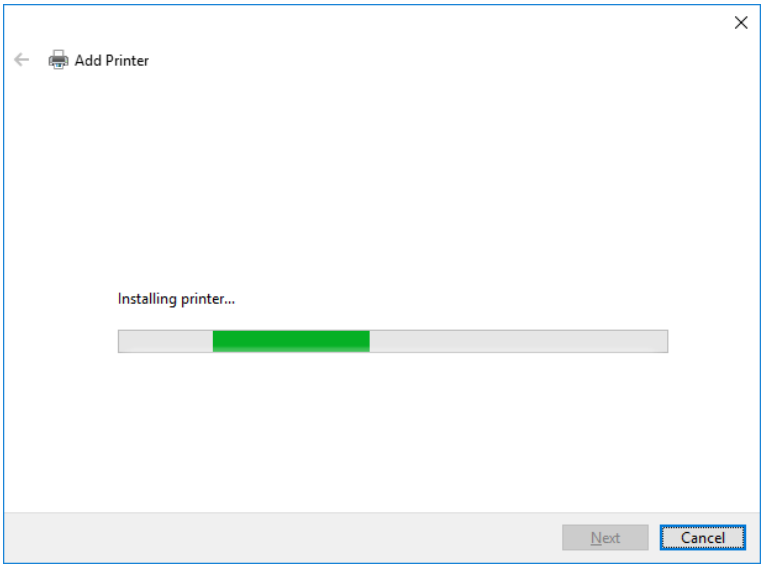

Figure 3.2-22 Installing printer

12. The printer sharing setting screen will be displayed. If you want to share it, enter sharing information, if not, select "Do not share this printer" and click “Next”.

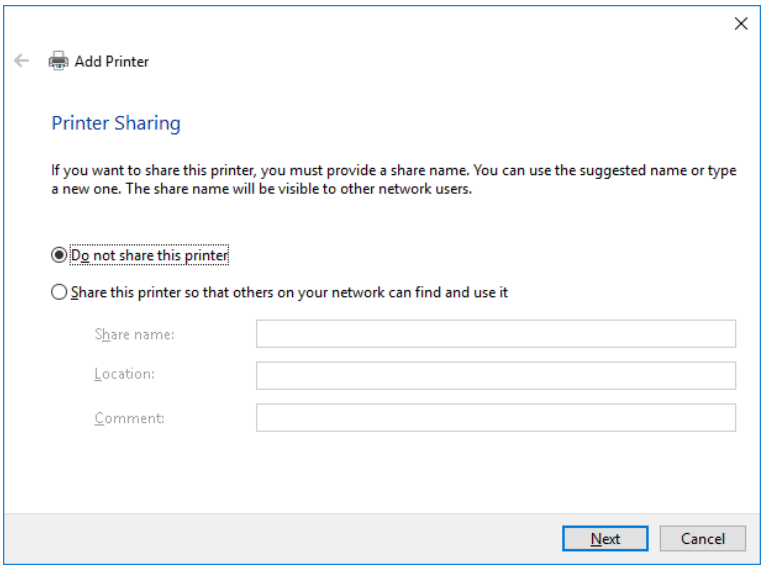

Figure 3.2-23 Printer Sharing

13. The installation is complete. Click “Finish” to close the dialog box.

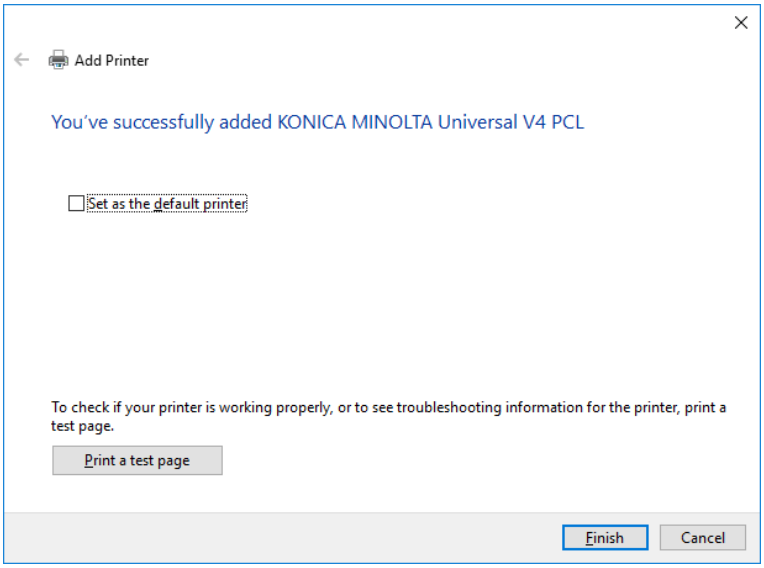

Figure 3.2-24 Installation complete

If you install KONICA MINOLTA V4 Universal Print Driver using this method, the model will not be selected automatically. So you also need to do the following procedure to select a model.

14. Right click the added printer icon from the “Devices and Printers” folder to open the Printing Preferences.
15. Click the following message that displayed on the Printing Preferences.
    “Please select model in [Devices and Printers]”.

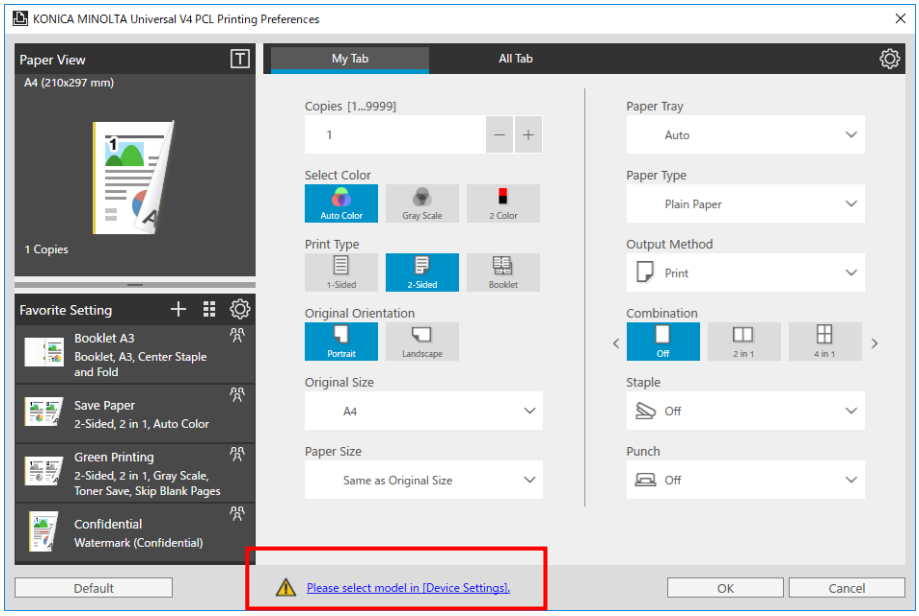

Figure 3.2-25 Printing Preferences

16. The Confirmation dialog box will be displayed. If you want to save the printing settings, click “Yes”. If not, click “No”.

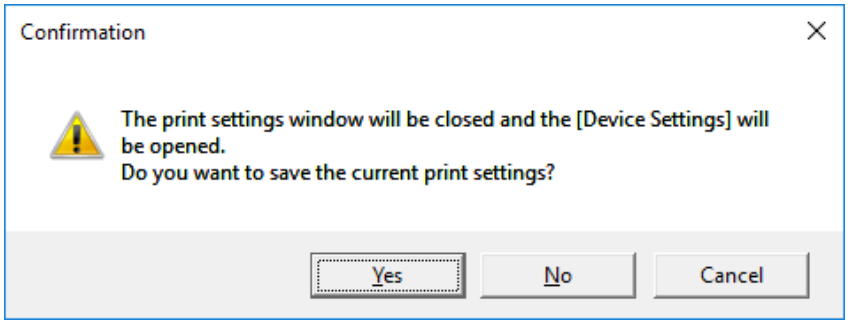

Figure 3.2-26 Confirmation

17. Select a model in Model Selection dialog box and Click “OK”. If you want to acquire the model automatically, Click “Auto”.

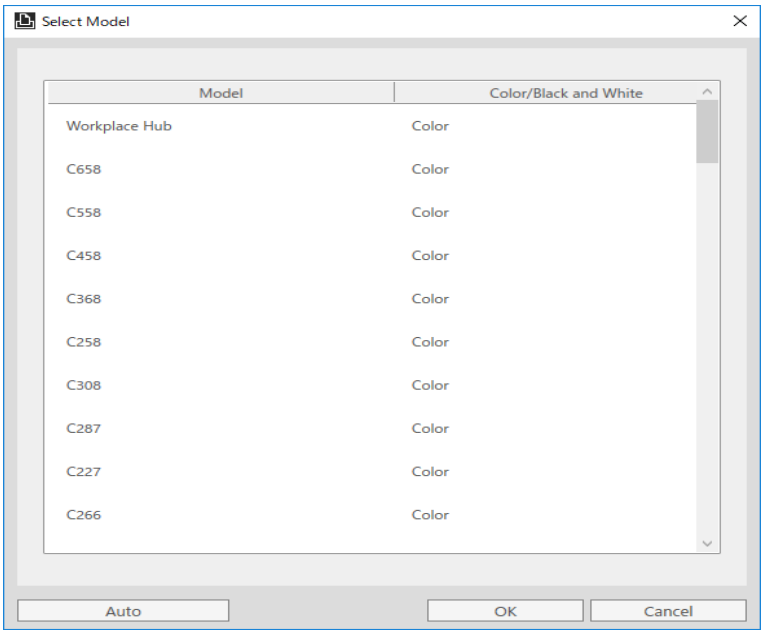

Figure 3.2-27 Model Selection

18. The Device Settings dialog box will be displayed. You can make settings for the device. Otherwise, click “OK” to close it.

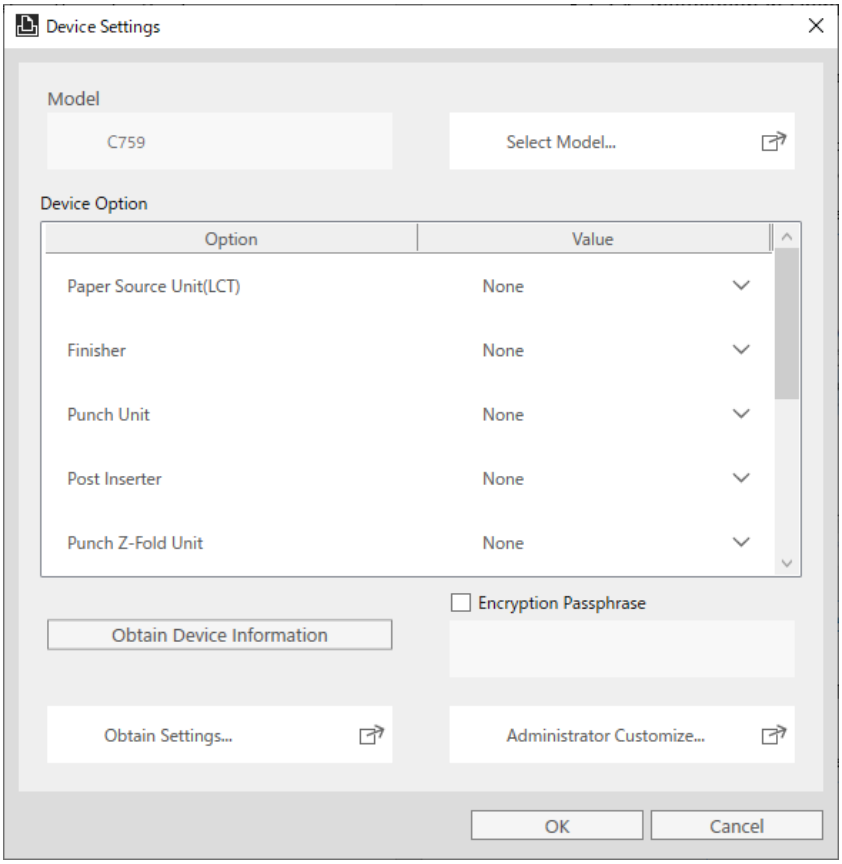

Figure 3.2-28 Device Settings

3.2.4. Installation in Point and Print environment

In V4UPD, when installing a shared printer in the Point and Print environment, it is necessary to install the driver on the client PC after installing the shared printer.

First, install the shared printer.

1. Open the “Devices and Printers” and click the “Add a printer” button.
2. The Add Printer wizard starts. Click “The printer that I want isn’t listed”.

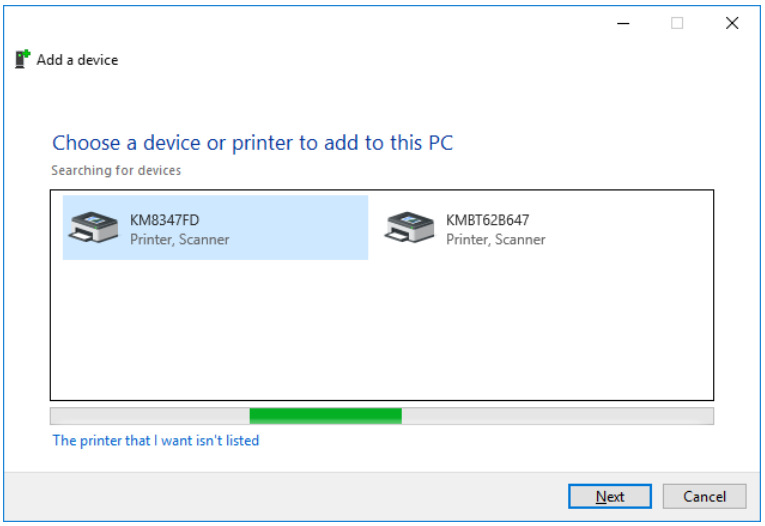

Figure 3.2-29 Searching for devices

3. In the “Find a printer by other options” window, select “Select a shared printer by name" radio button and enter the shared printer path. Alternatively, you can also click on [Browse…] button to search the shared printer from the network.

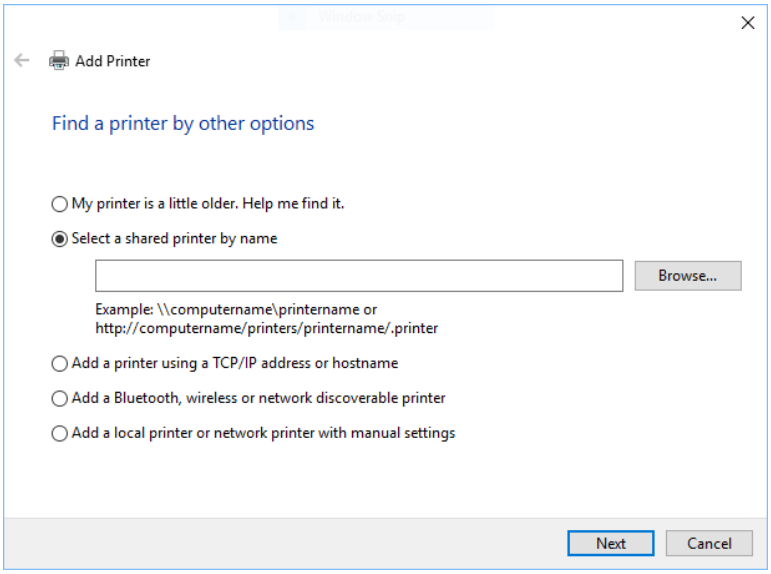

Figure 3.2-30-1 Find a printer by other options

4. Clicking on [Browse...] button displays a list of selectable computers. Select the network printer or enter the printer name and click [select].

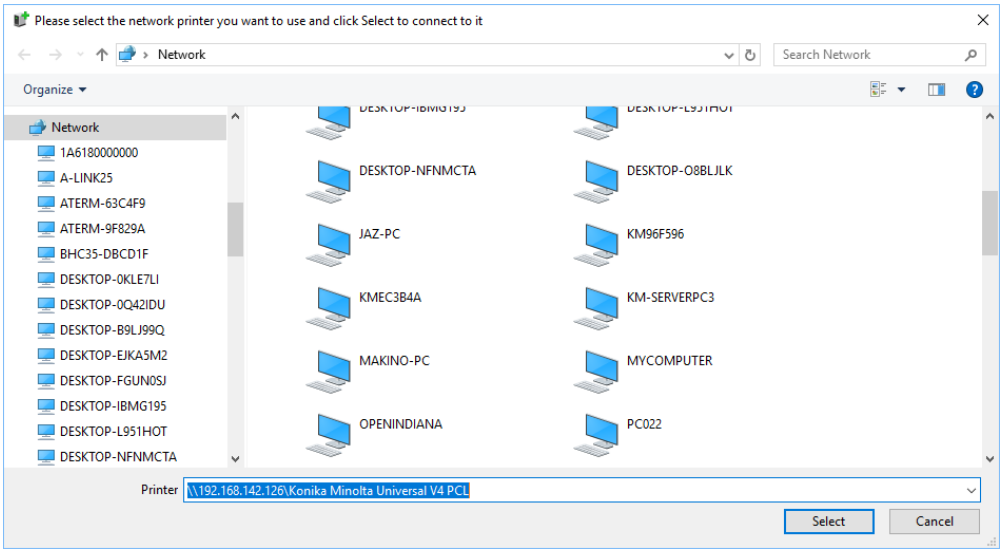

Figure 3.2-31-2 Select network Printer

5. If network authentication is required, [Enter network credentials] window is displayed. On this window, enter the administrator account and password. Also make sure to check the "Remember my credentials" checkbox.
   If the checkbox is not checked, your credentials will not be stored and correct driver installation and operation will not be possible.
   After entering and checking, click [OK].

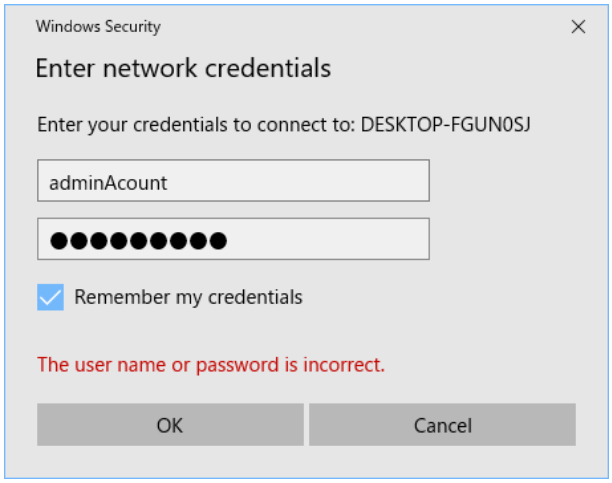

Figure 3.2-32-3 Enter network credentials

If you click [OK] and continue the installation without checking the "Remember my credentials" checkbox, please remove and reinstall the print queue. Alternatively, use the Credential Manager utility to register the credential information of the server.

6. Return to the “Find a printer by other options" window and click [Next].

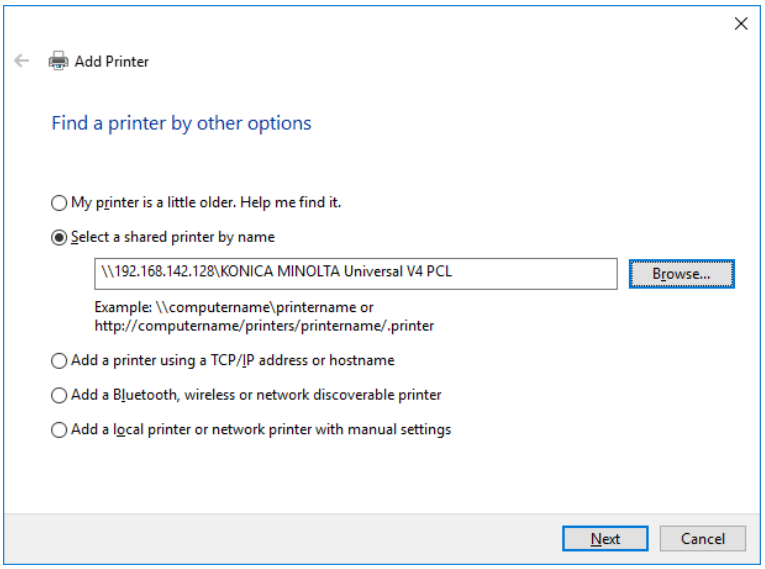

Figure 3.2-33-4 Find a printer by other options

7. Connecting to the shared printer.

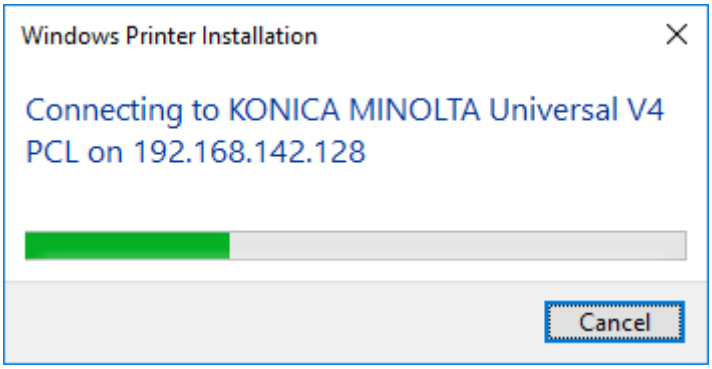

Figure 3.2-34 Connecting

8. If added successfully, the following screen is displayed. Click [Next].

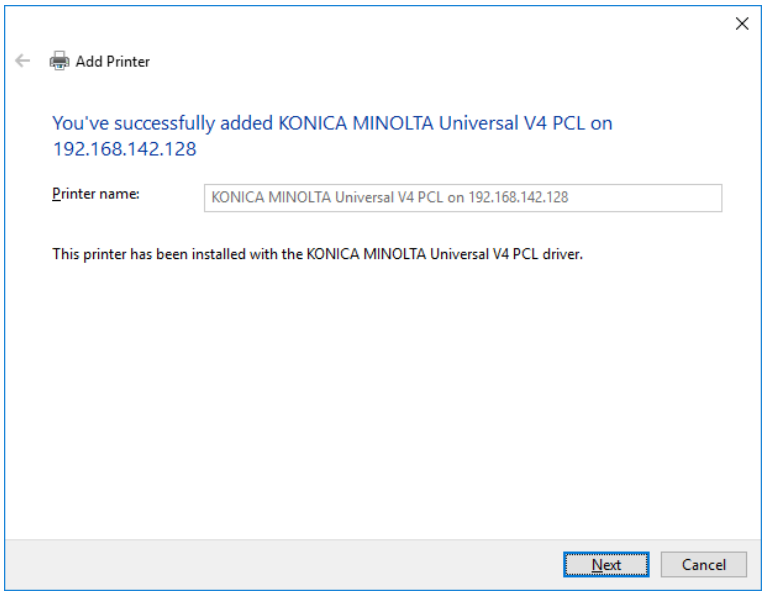

Figure 3.2-35 Added successfully

9. Click “Finish” to close the dialog box.

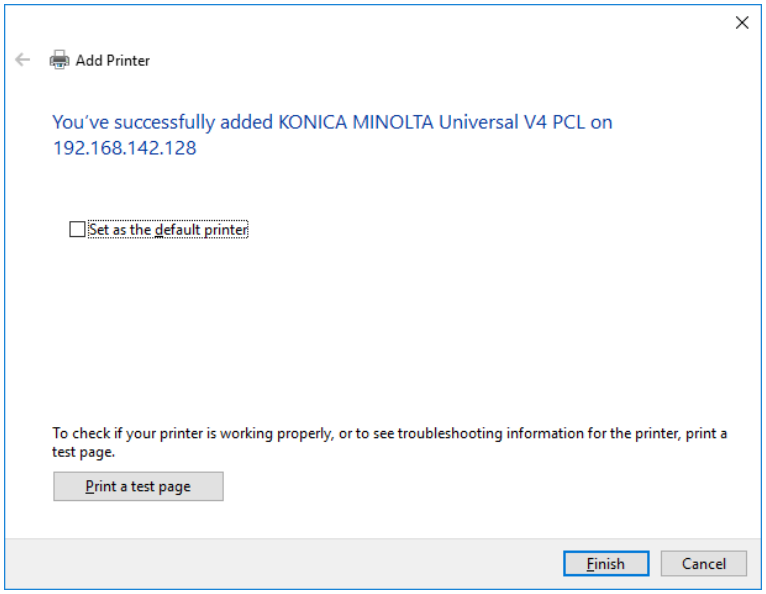

Figure 3.2-36 Finish to install

Next we will install the driver on the client PC. There are two ways.

Method1: Installing by using the Included Installer

1. Execute "Setup.exe".
2. Check the Software End User License Agreement, and if there are no problems, click “Agree”.

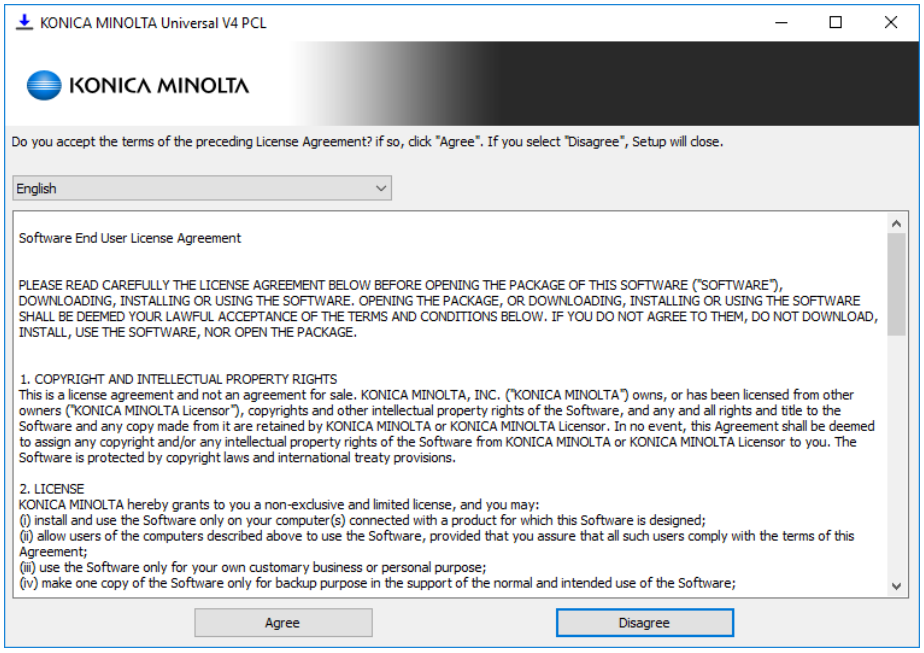

Figure 3.2-37 Software End User License Agreement dialog box

3. Click “Standard Update”

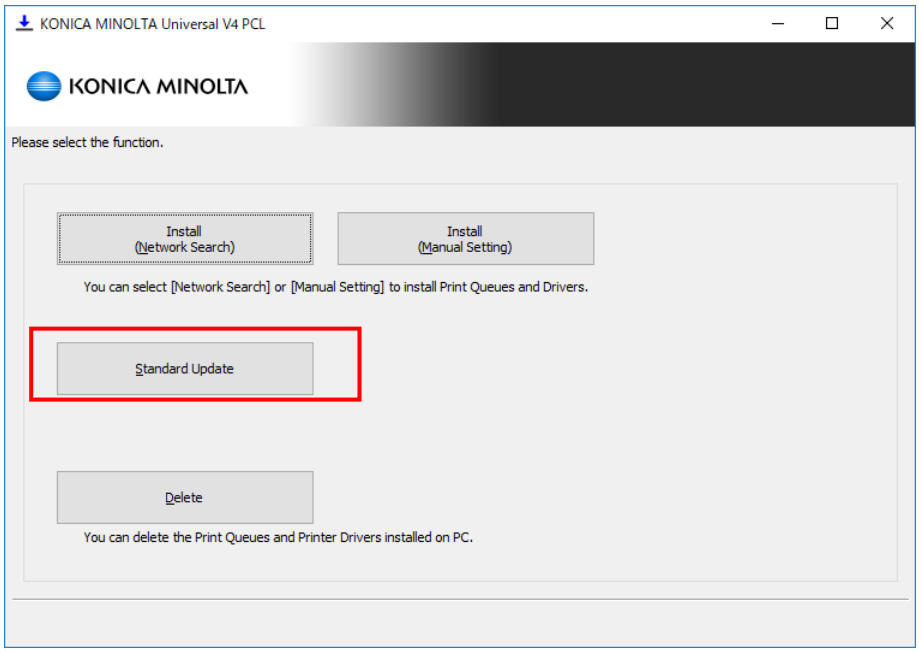

Figure 3.2-38 Function Selection dialog box

4. The print queue name of the shared printer that you installed is displayed in the Print Queue Name. Click “Next”.

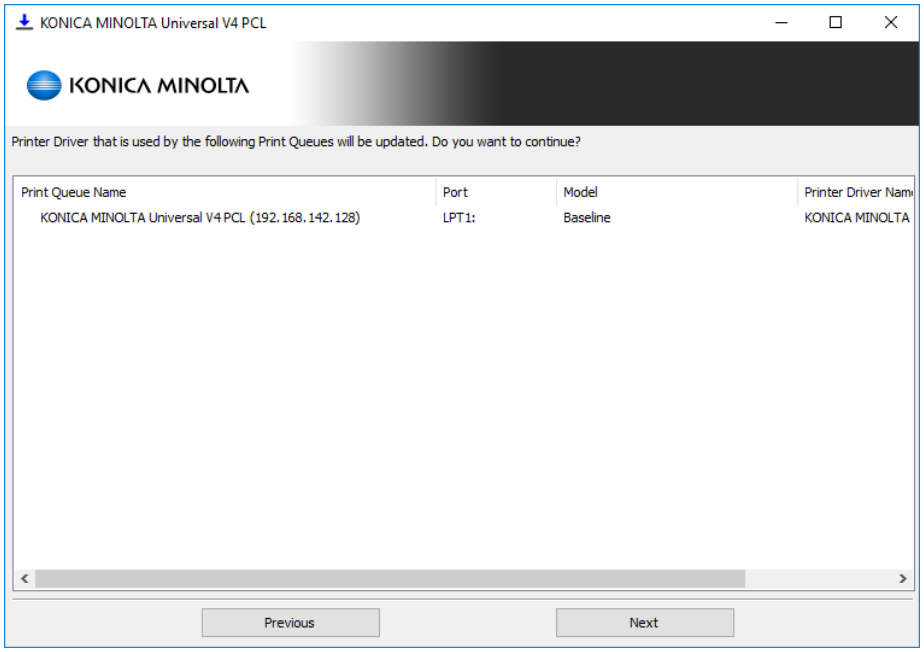

Figure 3.2-39 Update Target Confirmation dialog box

5. Confirm the print queue name and click “Update” to install the printer driver.

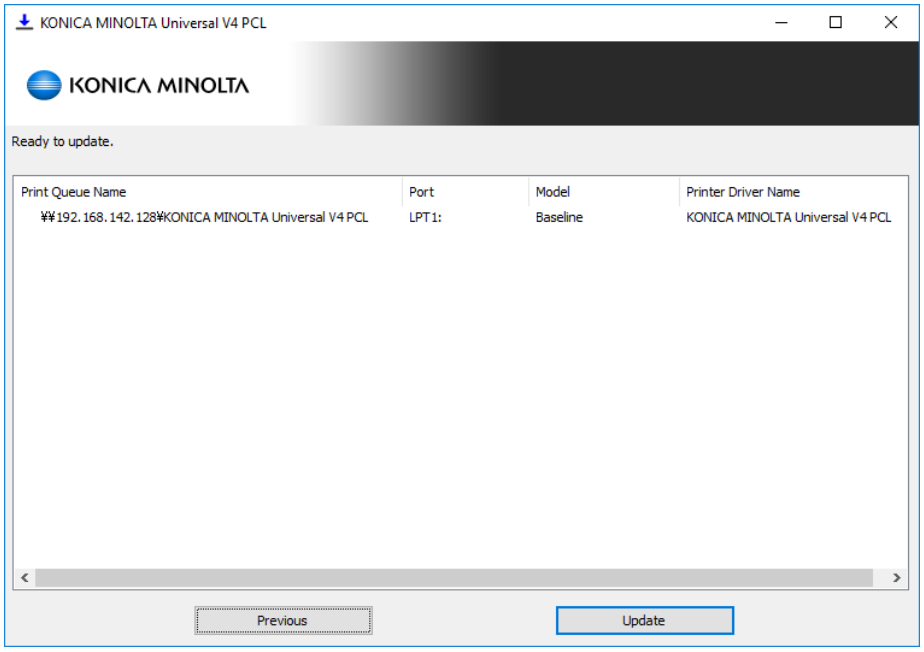

Figure 3.2-40 Update Target Confirmation dialog box (continue)

6. Staring update.

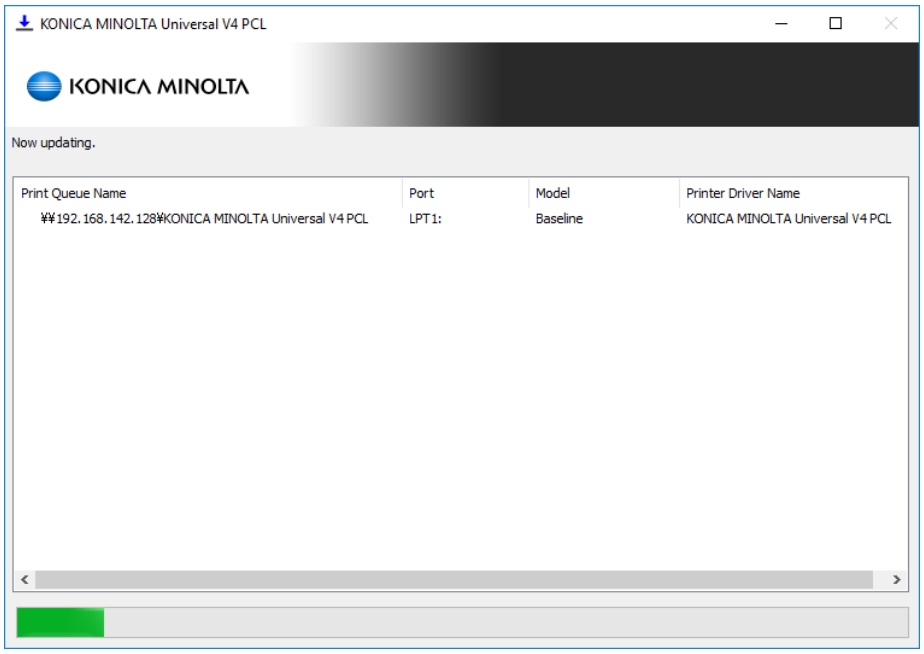

Figure 3.2-41 Updating Process dialog box

7. The update is complete. Click “OK” to close the dialog.

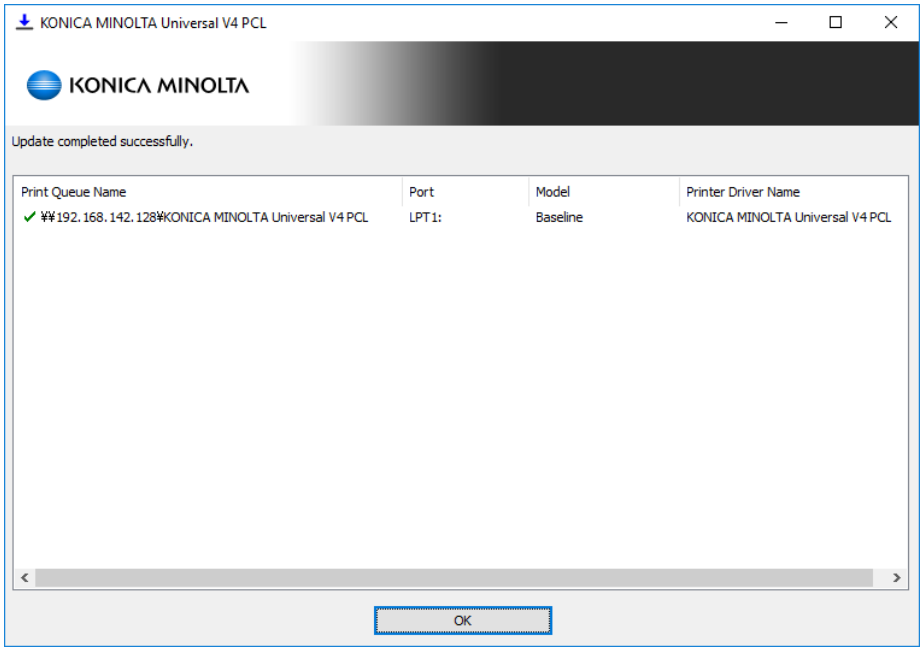

Figure 3.2-42 Update Complete dialog box

Method2: Manual Installation

1. Open the "Devices and Printers" folder and click the "Print Server Properties" button. Click the "Add" button in "Drivers" tab of Print Server Properties dialog box.

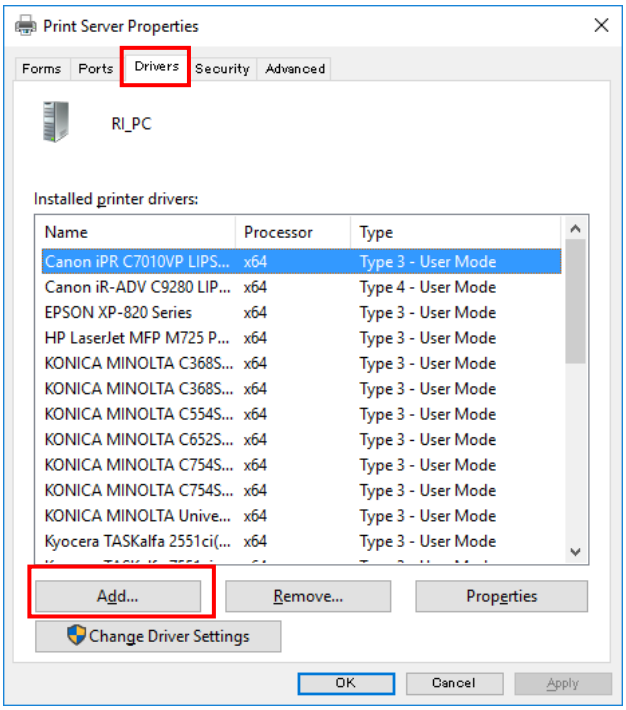

Figure 3.2-43 Print Server Properties

2. Click "Next".

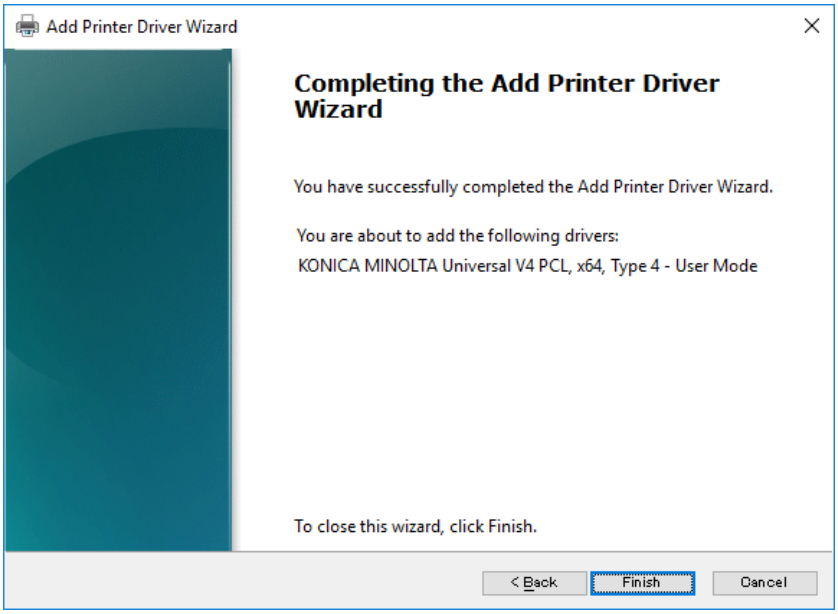

Figure 3.2-51 Add Complete

10. Click “OK” to close the Print Server Properties dialog box.

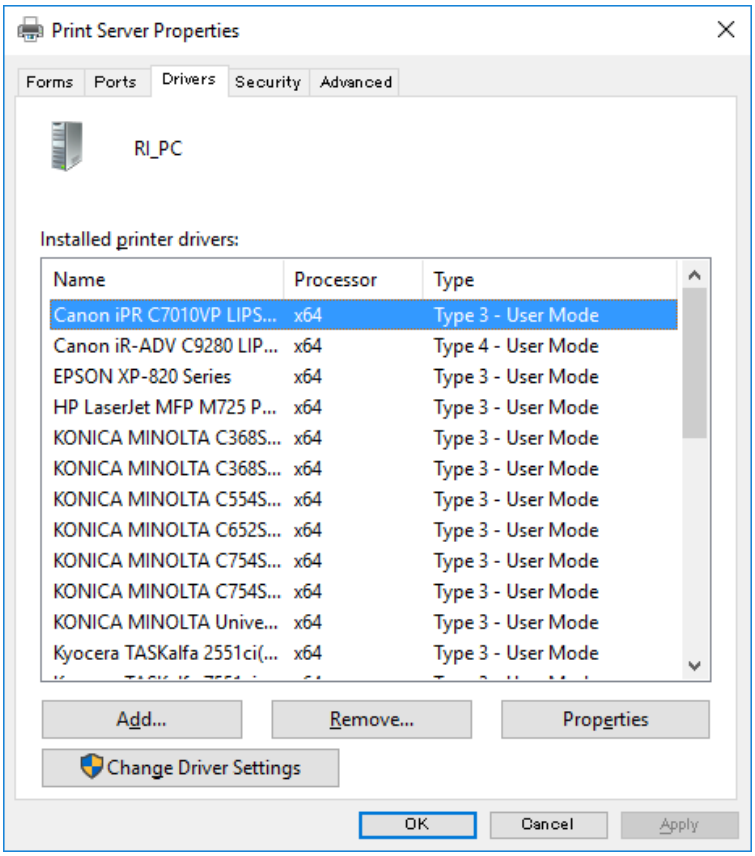

Figure 3.2-52 Print Server Properties

3.2.5. Installation of Windows Store Device App

Windows Store Device App, which is the Printing Preferences screen for the Windows Store Apps, will be downloaded from the Windows Store automatically and installed after installing the KONICA MINOLTA V4 Universal Print Driver. After installation is completed, you can check KONICA MINOLTA Print Experience from the Start Menu of Windows.

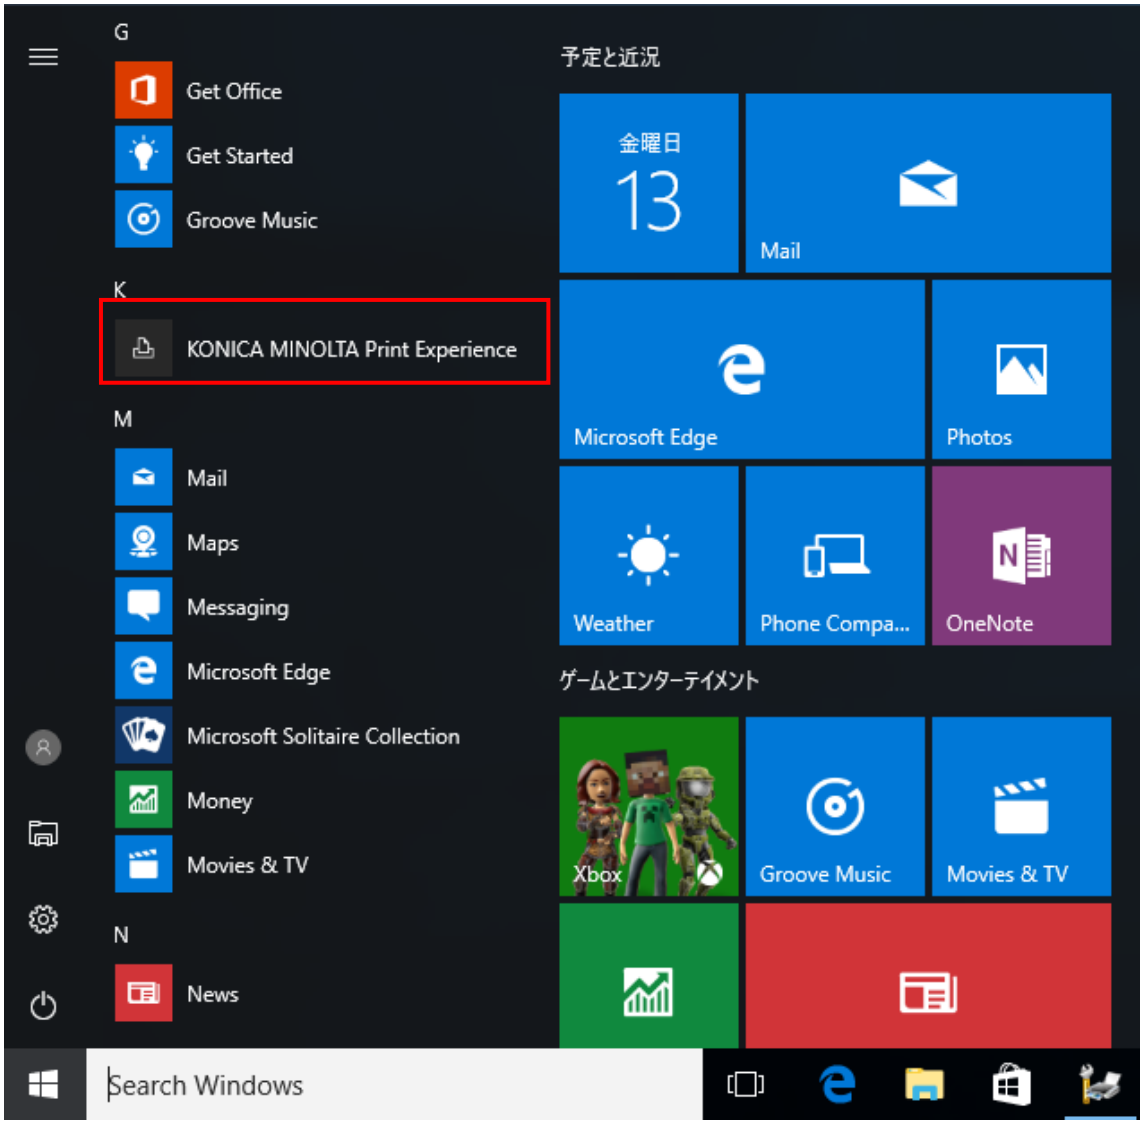

Figure 3.2-53 Start Menu of Windows 10

If the Print Experience do not download automatically, check the followings.

- You are connecting to the Internet.
- You have access to the Windows store.

3.3. Uninstallation

3.3.1. If You Installed the Software Using the Included Installer

If you have installed UPD using the included installer, then the uninstaller is also installed on your operating system. Use that to uninstall the software.

1. Use the following method to start uninstaller.
   Select “Control Panel” -> “Programs and Features” and double click “KONICA MINOLTA Universal V4 PCL”.

2. Print Queue and Printer Driver, which can be deleted will be displayed. Check on what you want to delete and click “Next”.

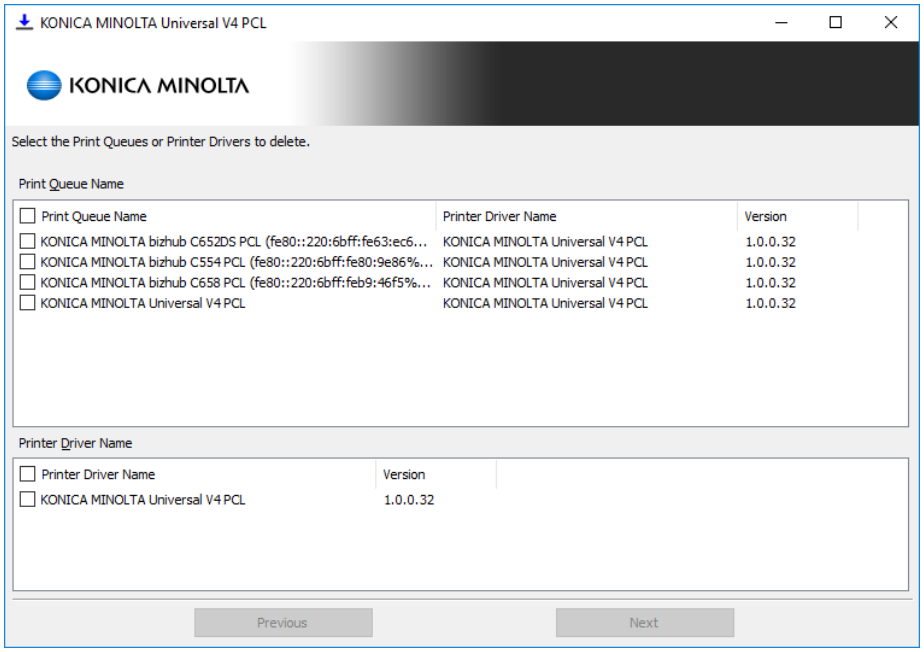

Figure 3.3-1 Uninstall target selection dialog box

3. If you selected to delete Printer Driver, all Print Queues that use the Printer Driver will be deleted.

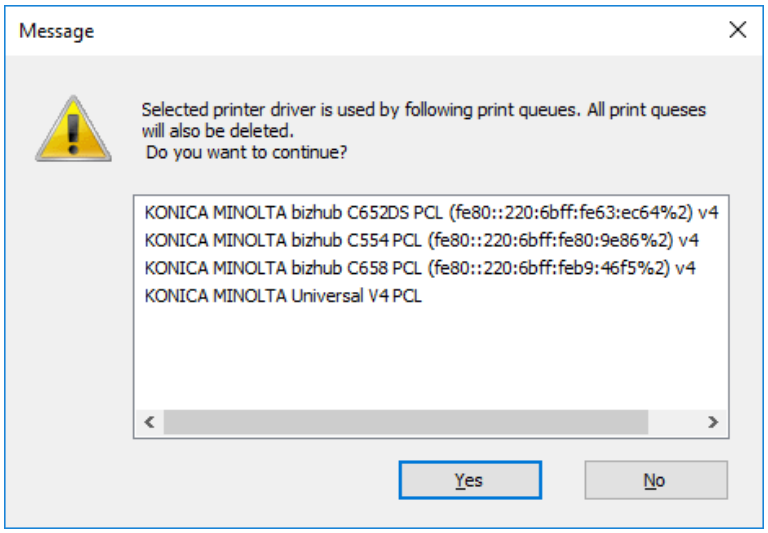

Figure 3.3-2 Uninstall impact notification dialog box

4. The confirmation dialog of uninstallation will be displayed.

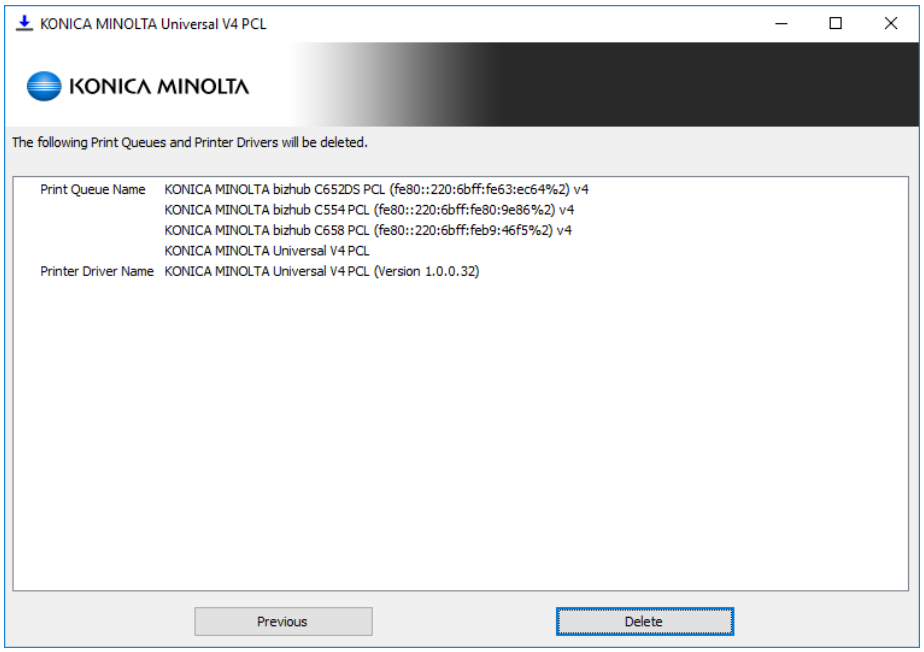

Figure 3.3-3 Uninstallation Details Confirmation dialog box

5. Progress of the Uninstallation will be displayed.

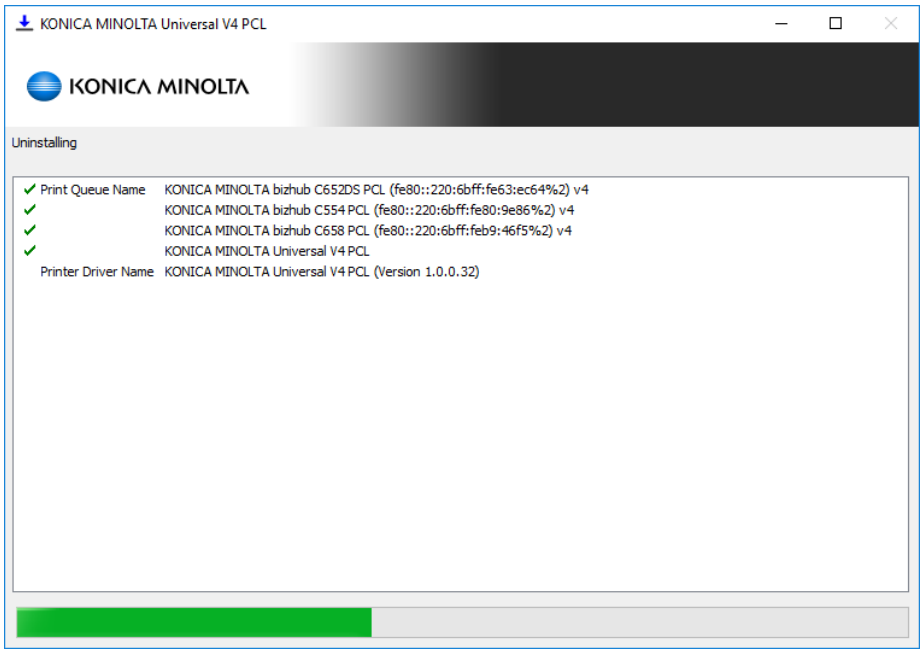

Figure 3.3-4 Uninstalling dialog box

6. The uninstallation is complete.

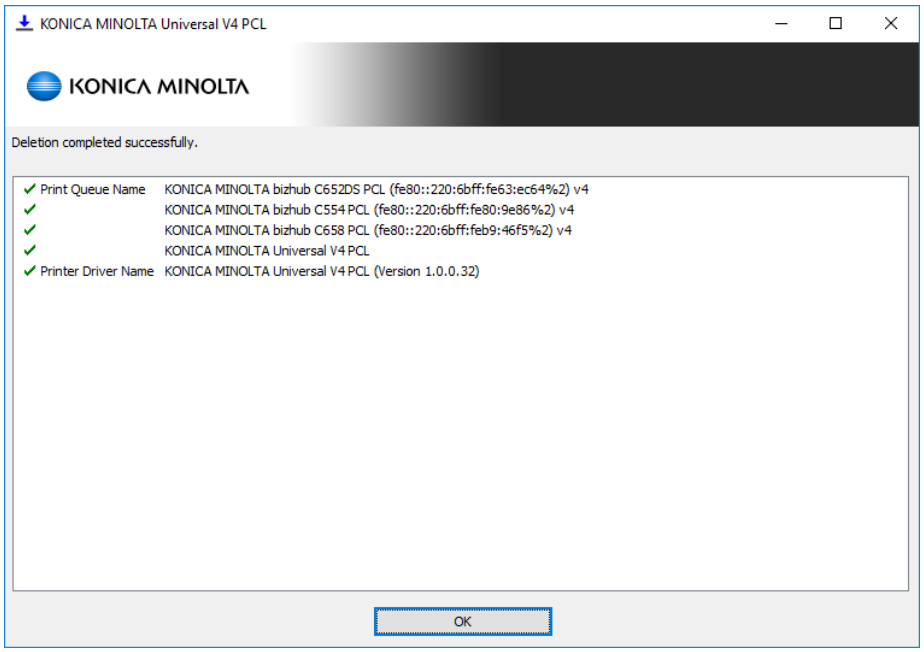

Figure 3.3-5 Uninstallation Complete dialog box

3.3.2. Manual Uninstallation

If you installed UPD manually, you must uninstall it manually by following the procedure below.

1. Delete all print queues using the driver of “KONICA MINOLTA Universal V4 PCL” from the “Devices and Printers” folder.
2. Delete “KONICA MINOLTA Universal V4 PCL” from the “Drivers” tab of the “Print Server Properties” dialog box.

3.3.3. Uninstallation in Point and Print environment

When using Point and Print, the driver needs to be removed also from the client side. Follow the steps below to remove the driver.

1. Open the “Devices and Printers” folder on client PC.
2. Delete the print queue of the shared V4 UPD.
3. Delete “KONICA MINOLTA Universal V4 PCL” from the “Drivers” tab of the “Print Server Properties” dialog box.

3.3.4. Uninstallation of Windows Store Device App

The method of uninstalling the Windows Store Device App is the same as other Windows Store Apps. On the Start Menu of Windows, find “KONICA MINOLTA Print Experience” and right click. Select “Uninstall” from the displayed menu.

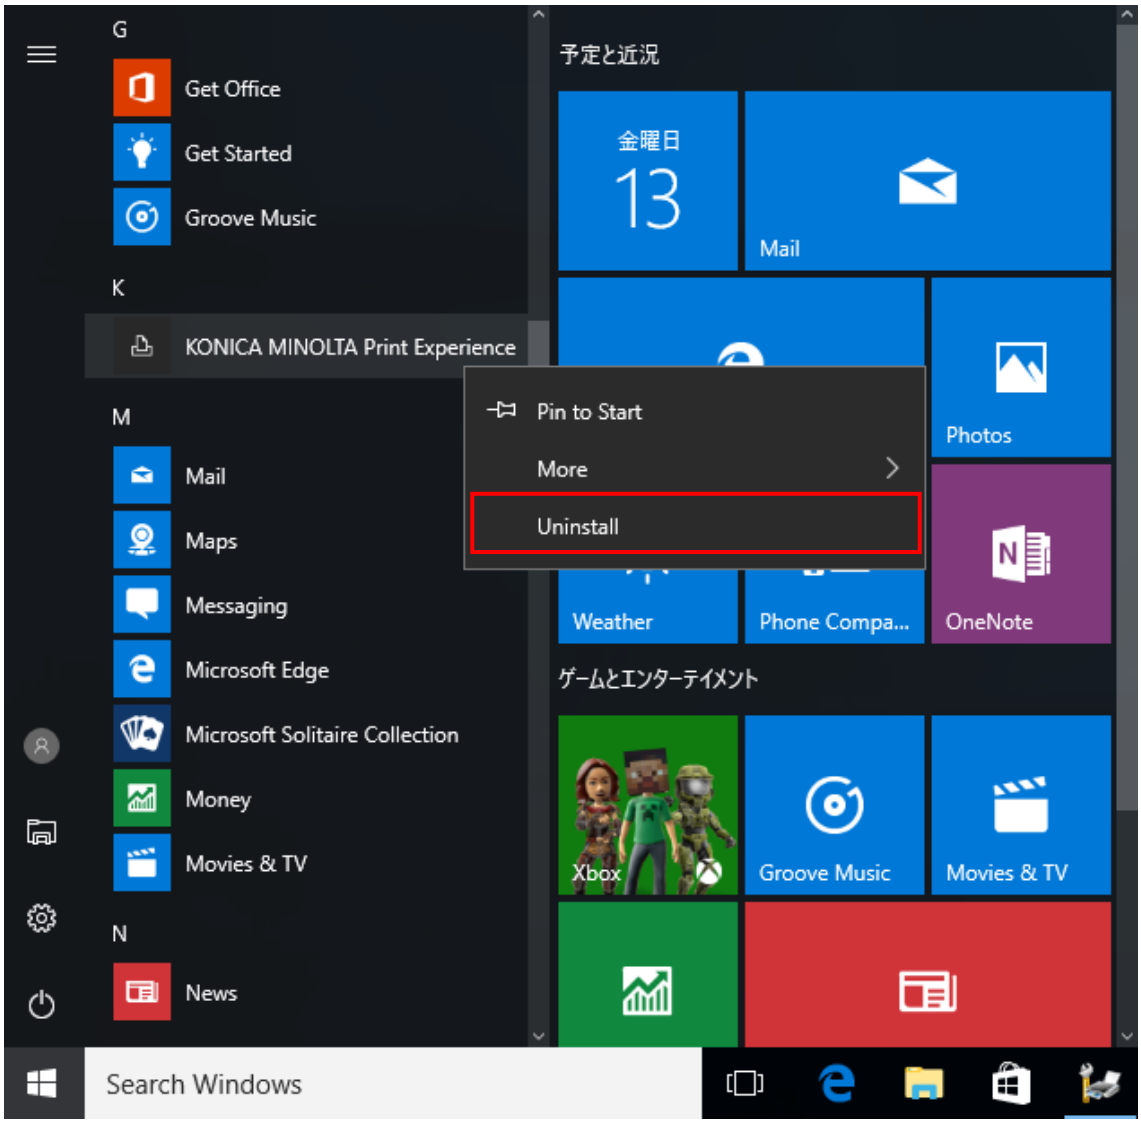

Figure 3.3-6 Start Menu of Windows 10

4. V4 Universal Print Driver's UI

4.1. Printing Preferences UI

KONICA MINOLTA V4 Universal Print Driver has a new UI that supports touch operation. There are two screens: the Printing Preferences for the desktop applications and the Printing Preferences for the Windows Store Apps.

Printing Preferences for the desktop applications

The Printing Preferences for the desktop applications consists of the following areas.

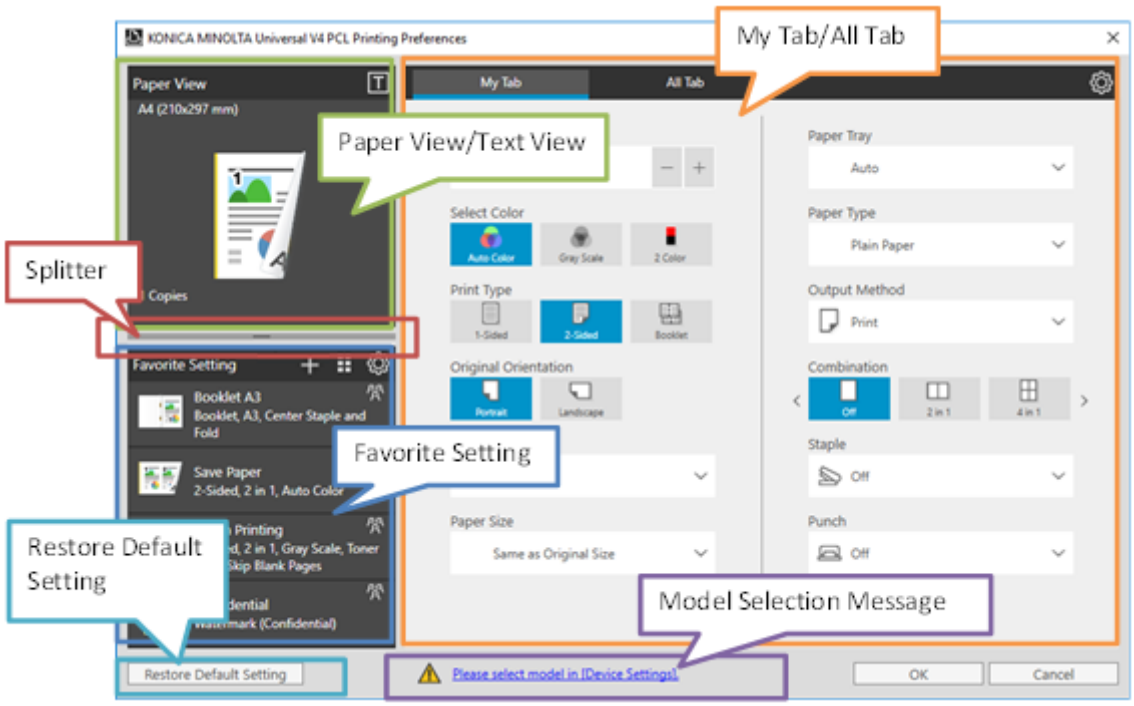

Figure 4.1-1 Printing Preferences for the desktop applications – My Tab

The descriptions of each area are described below.

Area	Description
Paper View / Text View	You can switch to two screens: “Paper View” and “Text View”.
Favorite Setting	It is the same function as the conventional favorite setting.
My Tab / All Tab	・You can switch to two screens: “My Tab” and “All Tab”. ・”My Tab” is the same function as the conventional My Tab. ・On the "All Tab" screen, you can set all print settings.
Splitter	You can adjust the height of “Paper View / Text View” and “Favorite Setting”.
Restore Default Setting	Change all settings except the following items to default values. ・Settings of child dialog. ・Items and layout of Favorite Settings. ・Items and layout of My Tab.
Model Selection Message	・A warning message will be displayed if the model is not selected or if the selected model is incorrect. ・The Model Selection Dialog Box will be displayed if click the message.

Table 4-1 Descriptions of the Printing Preferences for the desktop applications

The following screen will be displayed by clicking “All Tab”.

In “All Tab”, it is grouped into "Basic", "Layout", "Finish", "Cover Mode ", "Stamp/Composition", and “Quality" and folded.

By clicking each group name, the setting value will be displayed.

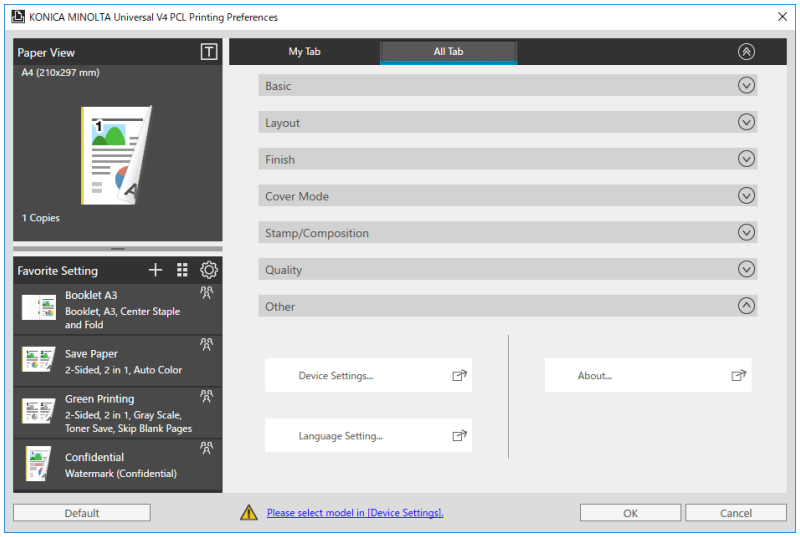

Figure 4.1-2 Printing Preferences for the desktop applications – All Tab

Printing Preferences for the Windows Store Apps

The Printing Preferences for the Windows Store Apps consists of the following areas.

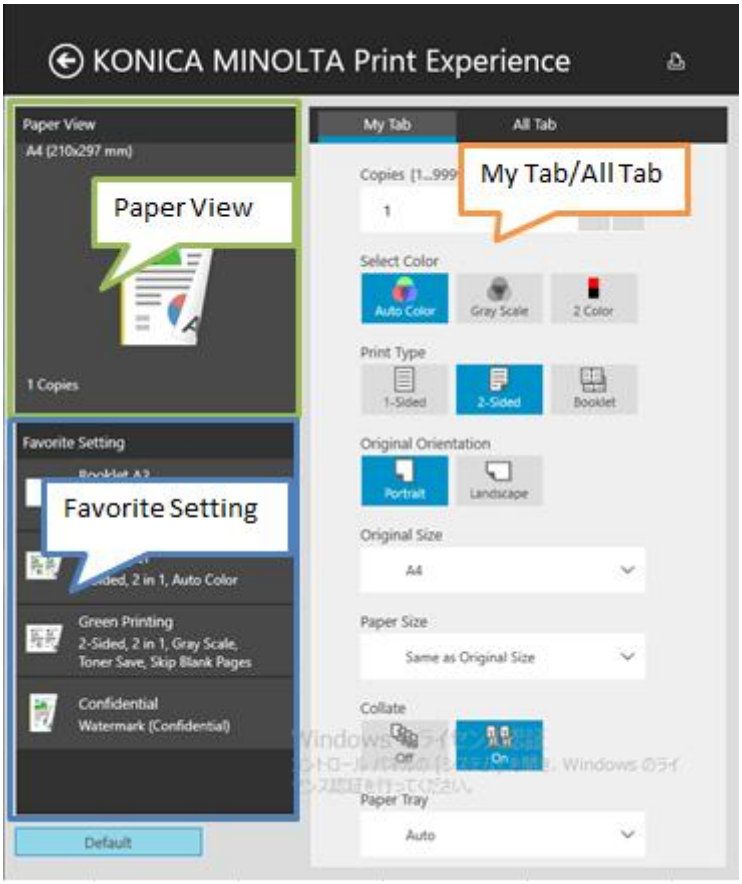

Figure 4.1-3 Printing Preferences for the Windows Store Apps – My Tab

Basically it is same as the Printing Preferences for the desktop applications. But the following functions are not supported.

- Text View
- Splitter
- Mode Selection Message

The following screen will be displayed by clicking “All Tab”.

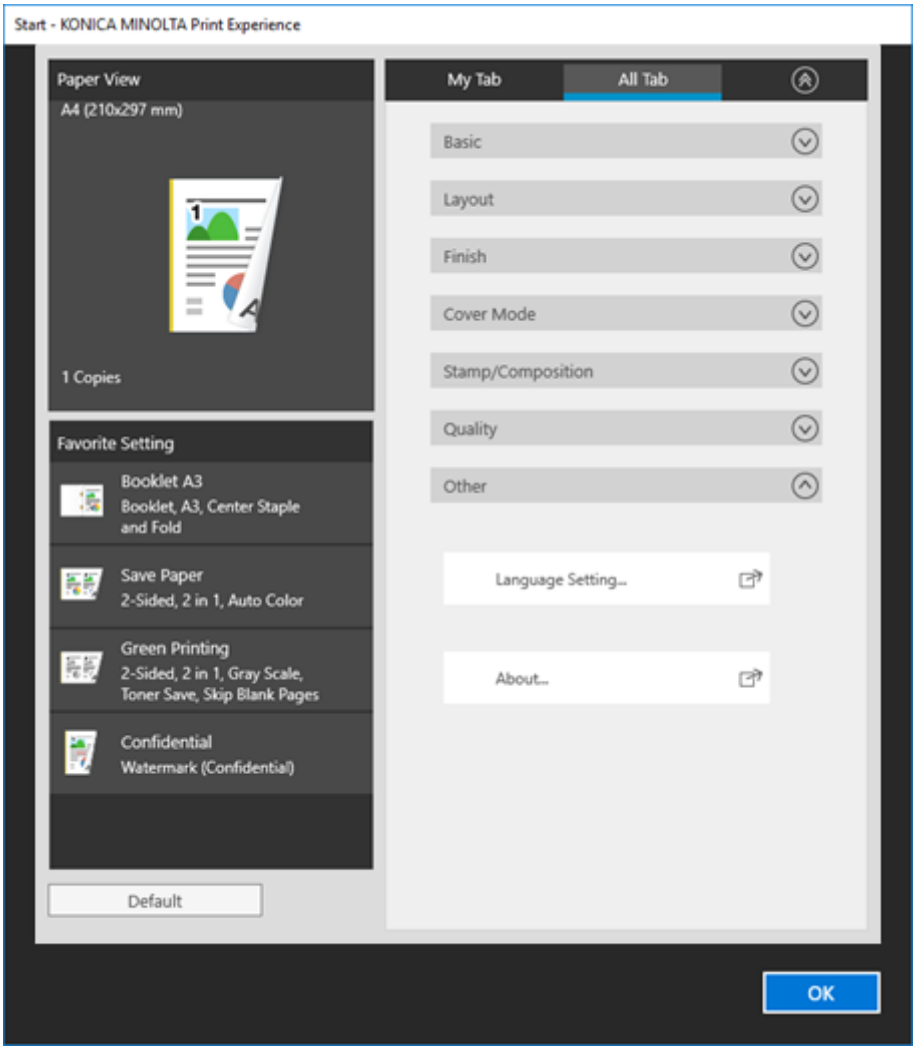

Figure 4.1-4 Printing Preferences for the Windows Store Apps – All Tab

4.2. Device Settings UI

You can select model and make settings for device in KONICA MINOLTA V4 Universal Print Driver.

Open the Device Settings dialog box from the Printing Preferences for the desktop applications by the following procedures.

1. Open the Printing Preferences for the desktop applications.
2. Click “All Tab”.

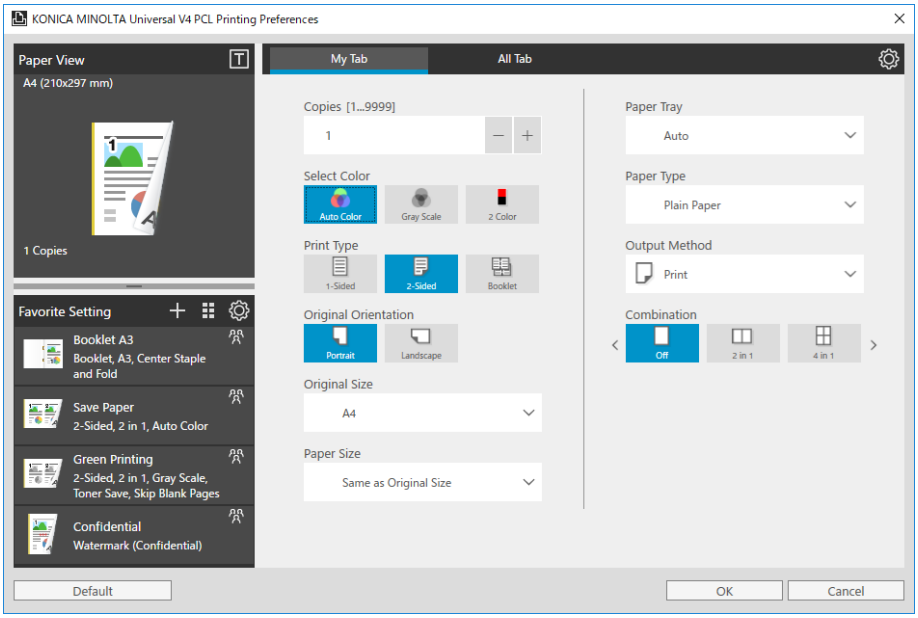

Figure 4.2-1 Printing Preferences for the desktop applications – My Tab

3. Click “Device Settings” button in the “Other” group.

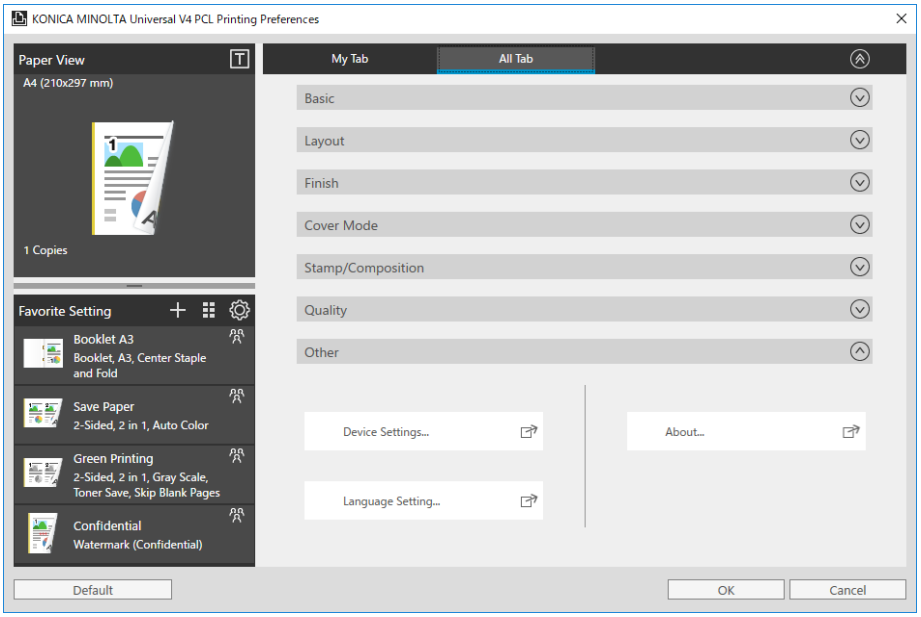

Figure 4.2-2 Printing Preferences for the desktop applications – All Tab

4. Confirmation dialog box will be displayed. Select “Yes” to save the current print settings, or “No” if you do not want to save them.

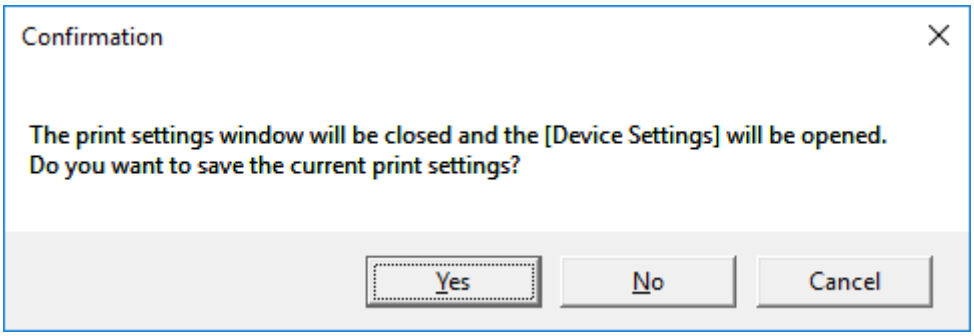

Figure 4.2-3 Confirmation

5. Device Settings dialog box is displayed.

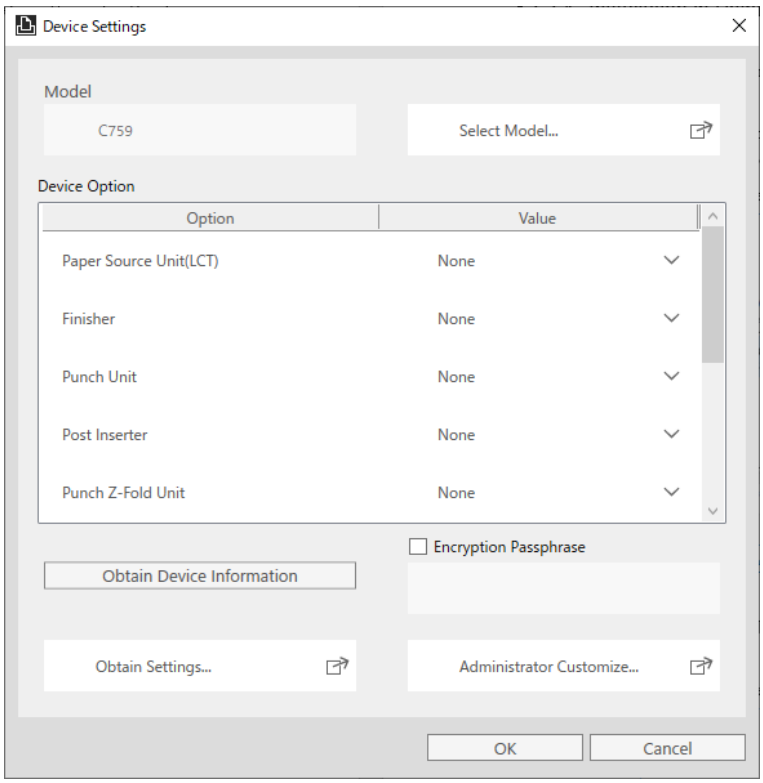

Figure 4.2-4 Device Settings

The descriptions of the settings in Device Settings are described below.

Parameter	Description
Model	Display the model name selected.
Select Model	Pop up the Model Selection dialog box.
Device Option	Displayed the information of device options.
Option	Display the options that can be set.
Value	Display the set value of each option.
Obtain Device Information	Obtain information from the device and apply it to “Device Option” and “Encryption Passphrase”.
Encryption Passphrase	Specify whether to set a user-defined encryption Passphrase.
Obtain Settings	Pop up the Obtain Settings dialog box.
Administrator Customize	Pop up the Admin Configuration dialog box.

Table 4-2 Descriptions of the Device Settings dialog box

4.3. Start Experience UI

The following screen will be displayed when open the KONICA MINOLTA Print Experience.

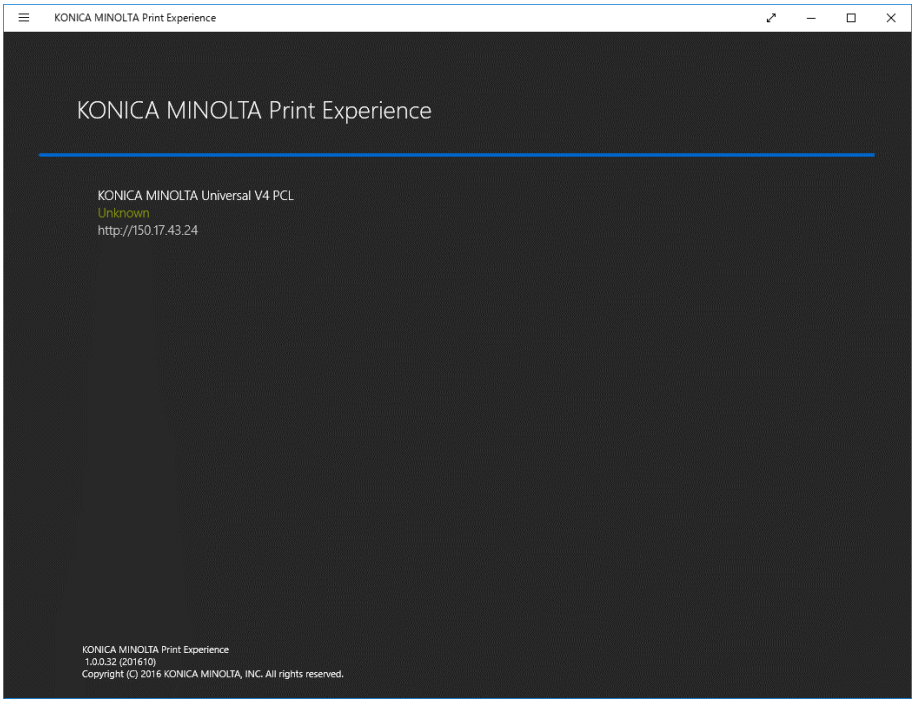

Figure 4.3-1 KONICA MINOLTA Print Experience screen

A list of printers using the KONICA MINOLTA V4 Universal Print Driver is displayed. If the URL is displayed, printer information will be displayed from browser by clicking it.

5. Using V4 Universal Print Driver

5.1. Changing the model

In KONICA MINOLTA V4 Universal Print Driver, you can change the model to be used from the driver UI.

1. Open the Printing Preferences for the desktop applications.

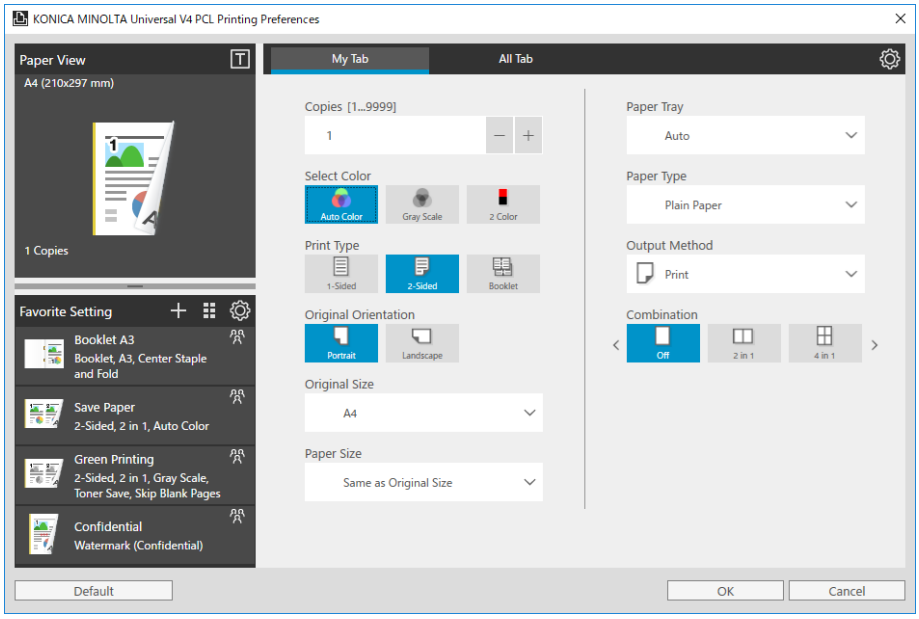

Figure 5.1-1 Printing Preferences for the desktop applications – My Tab

2. Click “Device Settings” button in the “Other” group of the “All Tab”.

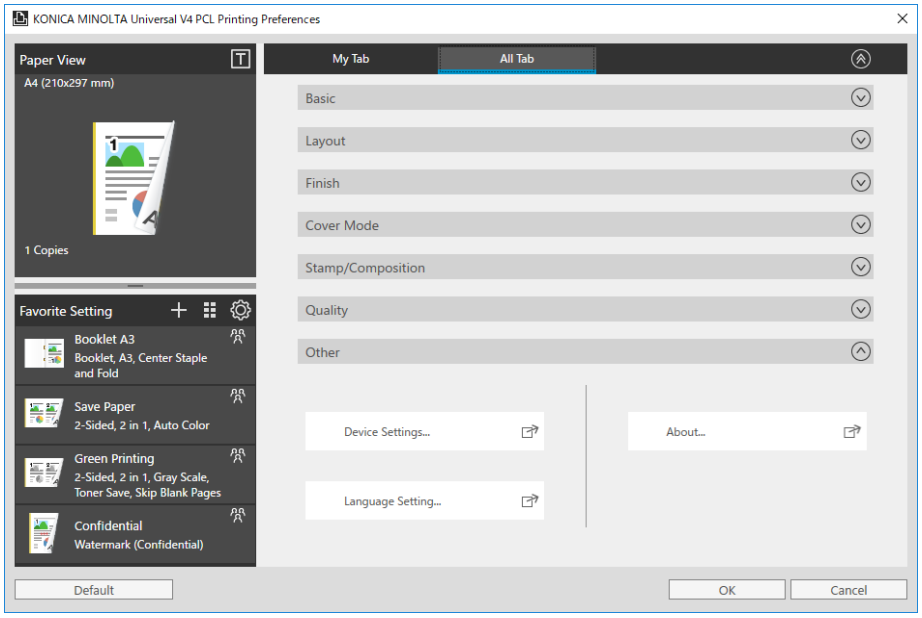

Figure 5.1-2 Printing Preferences for the desktop applications – All Tab

3. Click the “Select Model” button in Device Settings dialog box.

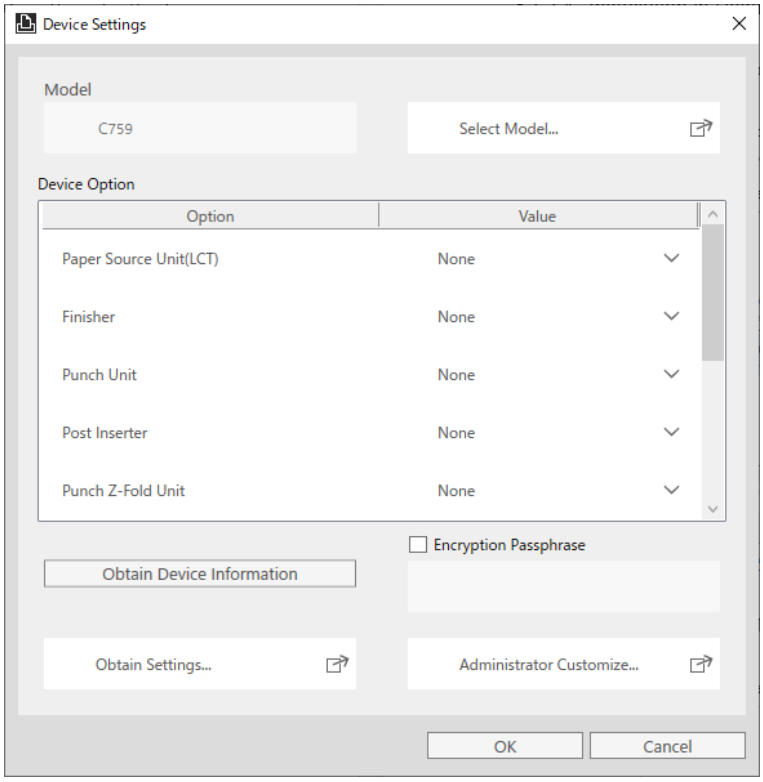

Figure 5.1-3 Device Settings dialog box

4. Select a model in Model Selection dialog box and Click “OK”. If you want to acquire the model automatically, Click “Auto”.

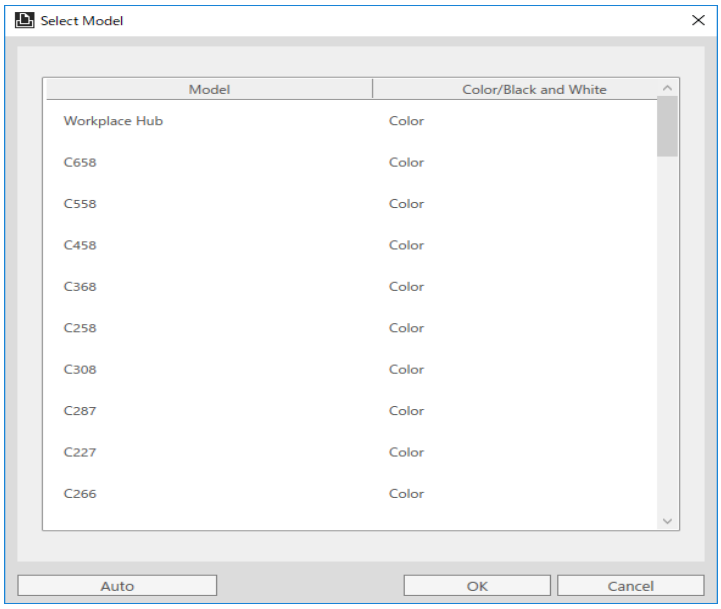

Figure 5.1-4 Model Selection dialog box

5. Click “OK” to close the Device Settings dialog box. The settings of the selected model will be reflected when you open the Printing Preferences next time.

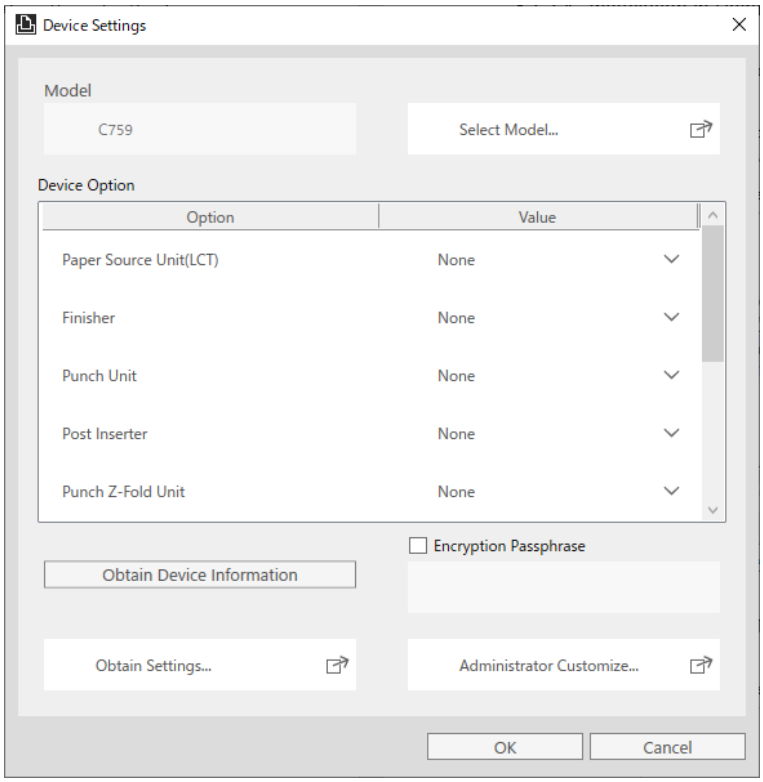

Figure 5.1-5 Device Settings dialog box

5.2. Changing the display language

In KONICA MINOLTA V4 Universal Print Driver, you can change the display language from Printing Preferences.

Change the display language from Printing Preferences for the desktop applications

1. Open the Printing Preferences for the desktop applications.

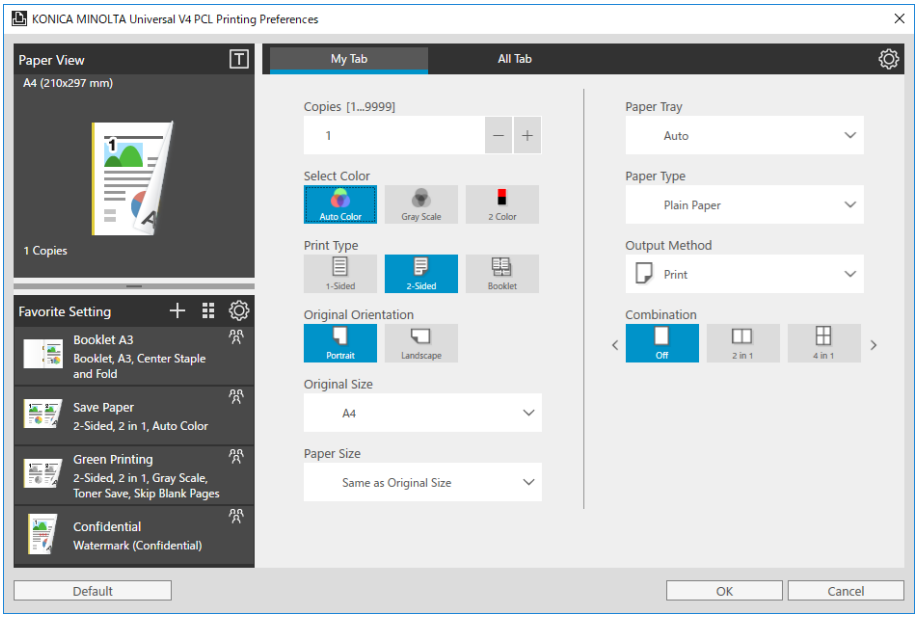

Figure 5.2-1 Printing Preferences for the desktop applications – My Tab

2. Click “Language Setting” button in the “Other” group of the “All Tab”.

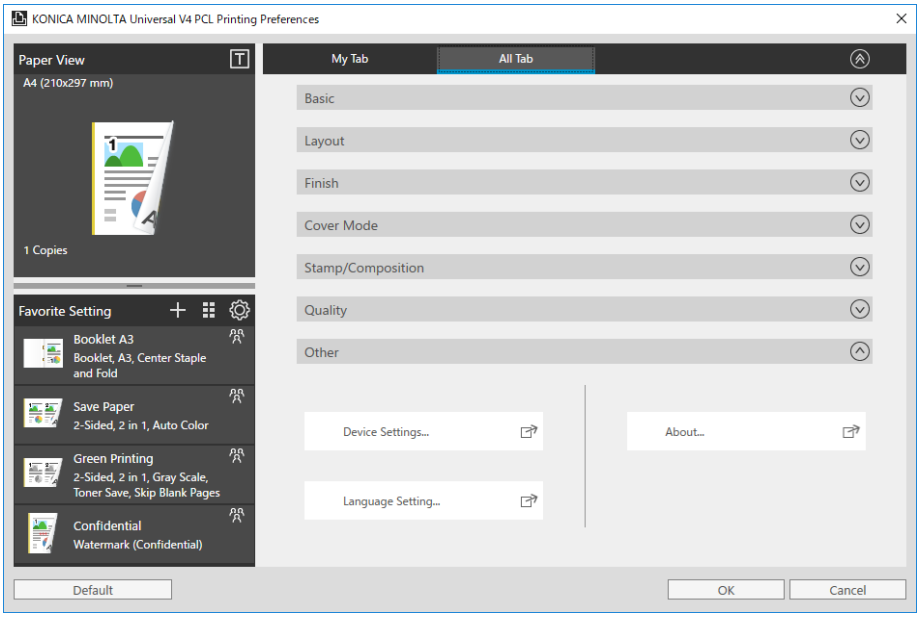

Figure 5.2-2 Printing Preferences for the desktop applications – All Tab

3. Set the display language on the Language Setting dialog box and click “OK” to close it.

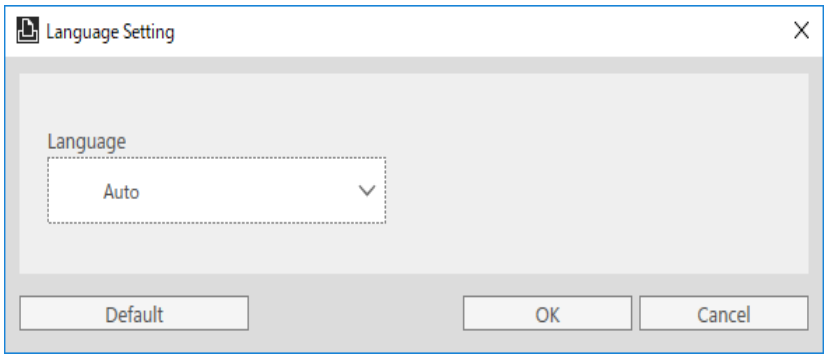

Figure 5.2-3 Language Setting dialog box

4. Click “OK” to close the Printing Preferences. The display language will be changed when you open the Printing Preferences next time.

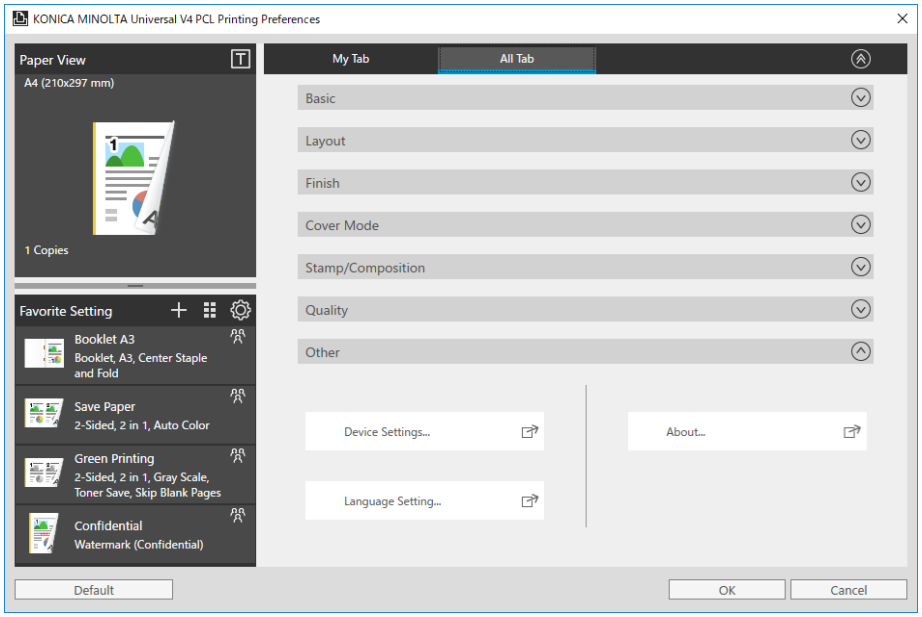

Figure 5.2-4 Printing Preferences for the desktop applications – All Tab

Change the display language from Printing Preferences for the Windows Store Apps

The method of changing the displayed language in the Printing Preferences for the Windows Store Apps is same as the Printing Preferences for the desktop applications

5.3. Editing My Tab

In KONICA MINOLTA V4 Universal Print Driver, you can edit My Tab screen and customize it.

1. Open the Printing Preferences for the desktop applications and click the gear icon in the upper right corner of the screen.

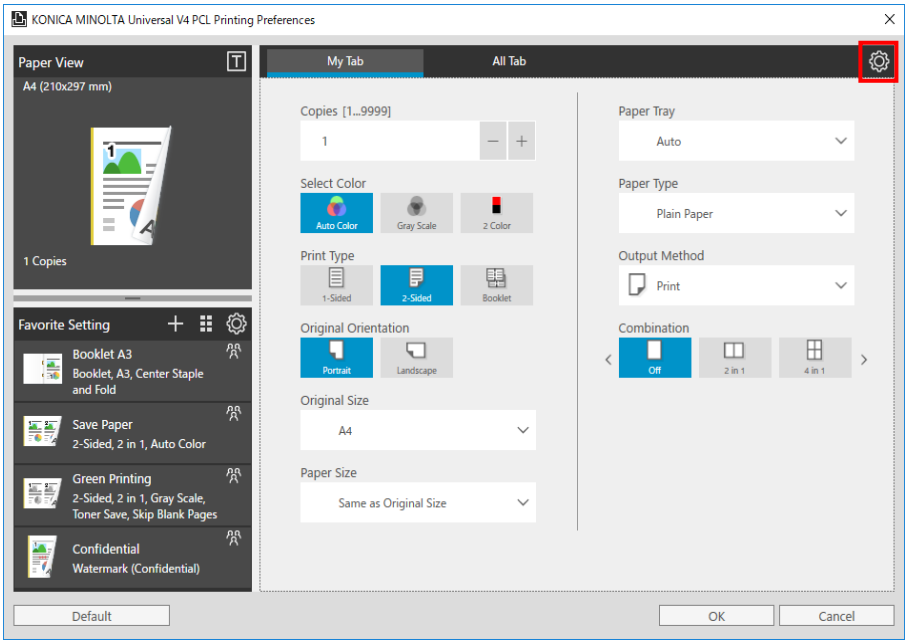

Figure 5.3-1 Printing Preferences for the desktop applications – My Tab

2. Entering the My Tab edit mode, you can add, delete, and change the items for your favorite.

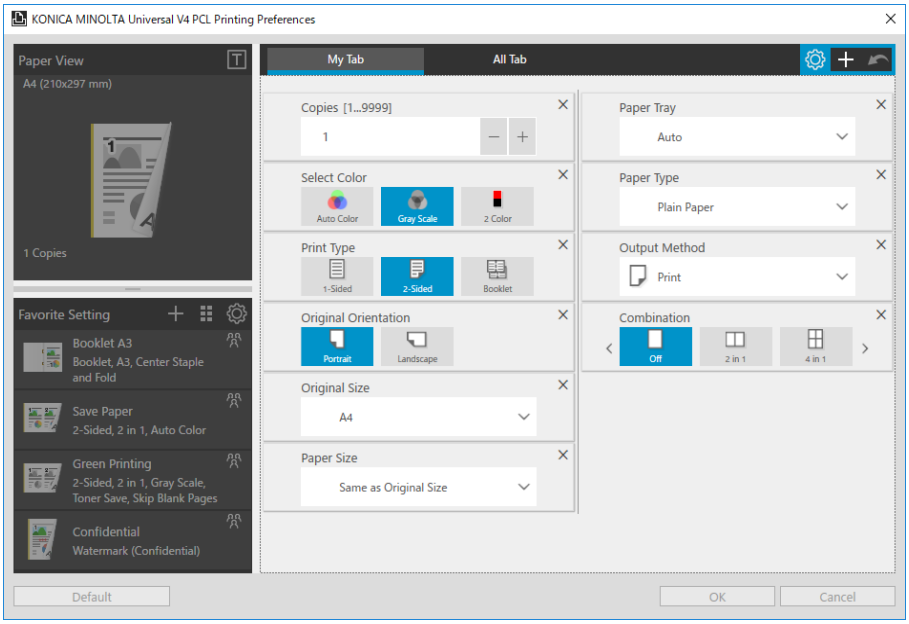

Figure 5.3-2 Edit My Tab

3. Click the gear icon again to save the edited content and end the edit mode of My Tab.

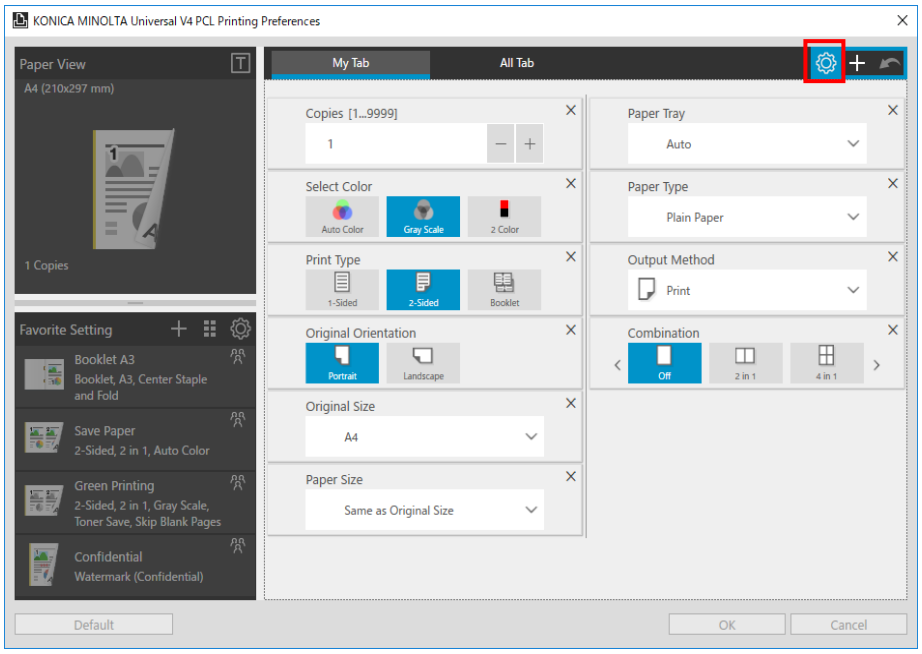

Figure 5.3-3 Edit My Tab

5.3.1. Adding My Tab

1. Entering the My Tab edit mode, click on the "+" icon in the upper right or click on "All Tab" tab.

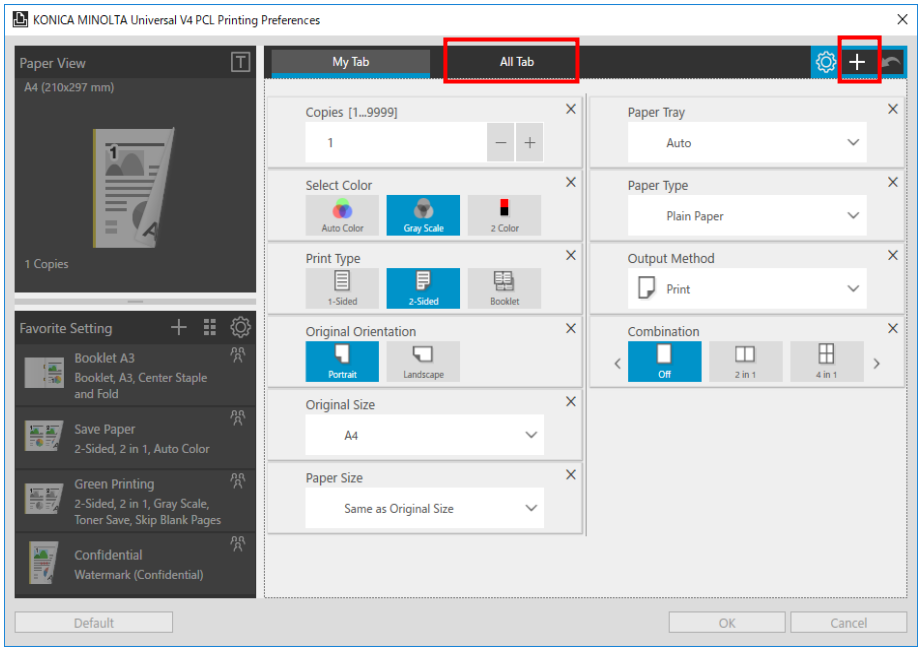

Figure 5.3-4 Printing Preferences for the desktop applications – My Tab

2. Move to the "All Tab" tab. The print settings, which have been added on My Tab are shown to be gray.

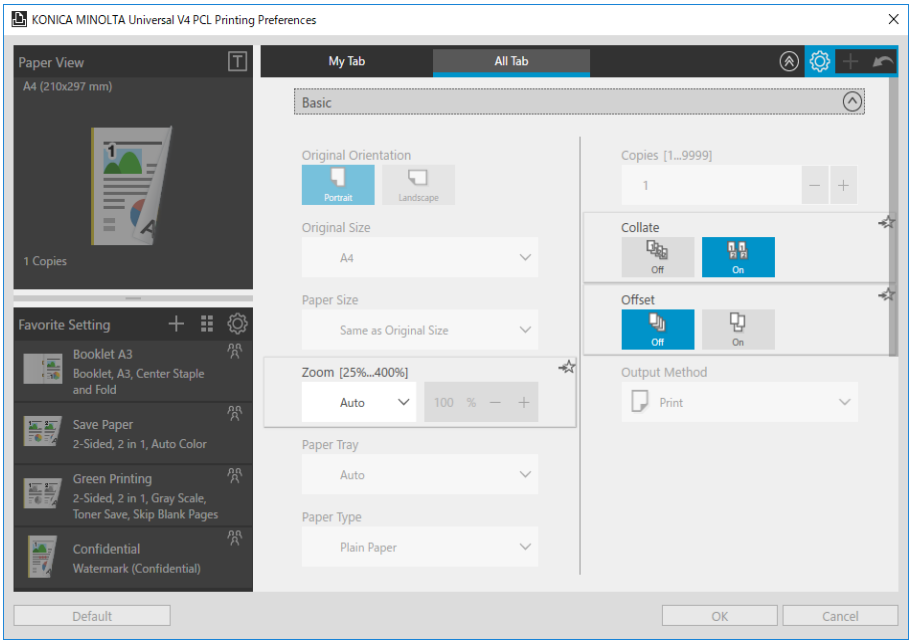

Figure 5.3-5 Edit My Tab

The following two methods can add print settings to My Tab.

Method 1 Use the Add button to add

① Click the [☆] icon on the top right of the selected item in All Tab.

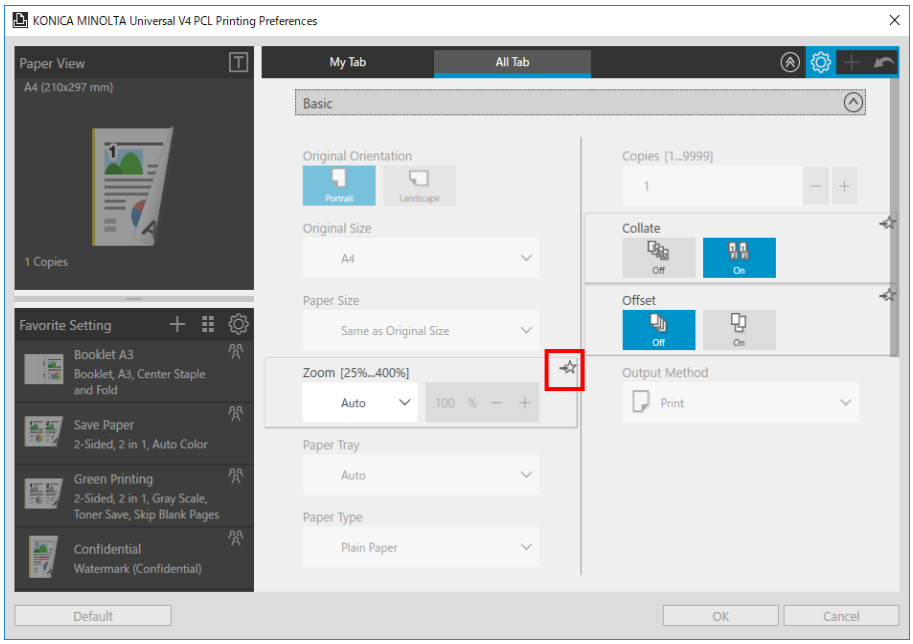

Figure 5.3-6 Edit My Tab

② The print settings that have been clicked will be added to the My Tab and then it will be gray.

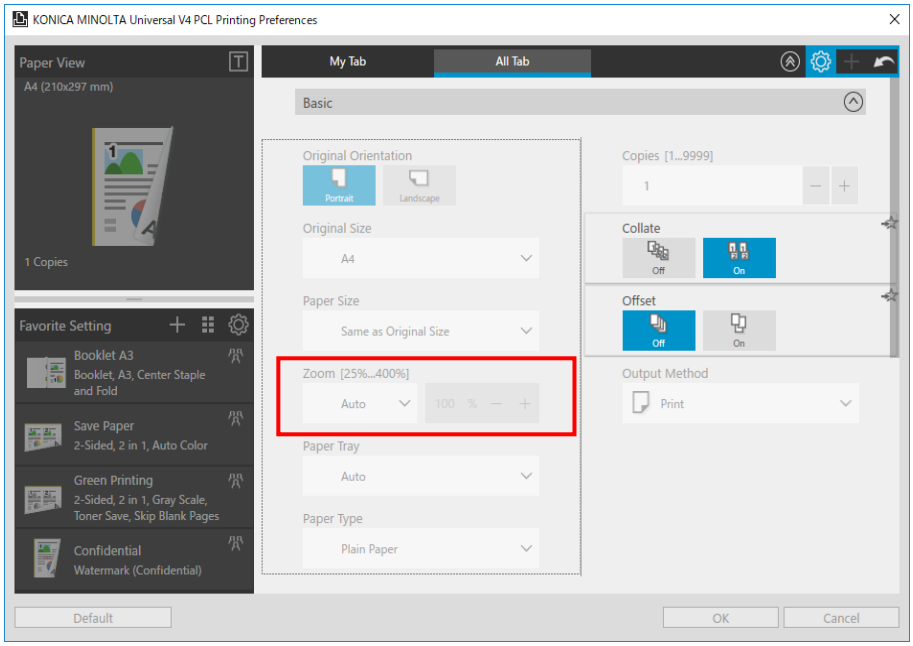

Figure 5.3-7 Edit My Tab

③ Click "My Tab" tab to confirm that the item have been added on the My Tab.

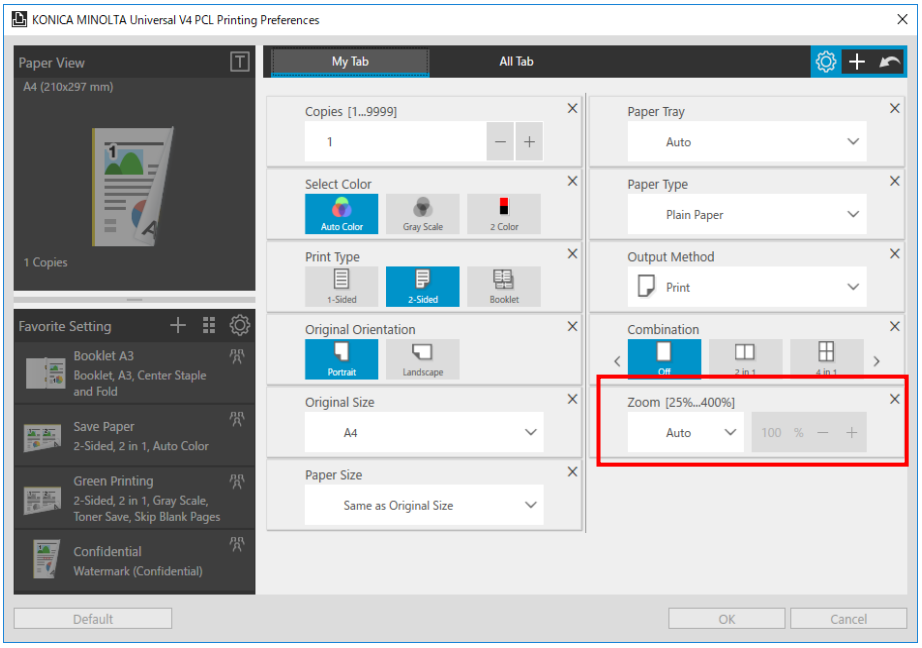

Figure 5.3-8 Edit My Tab

Method 2 Drag and drop to add

① Drag the print setting you want to add.

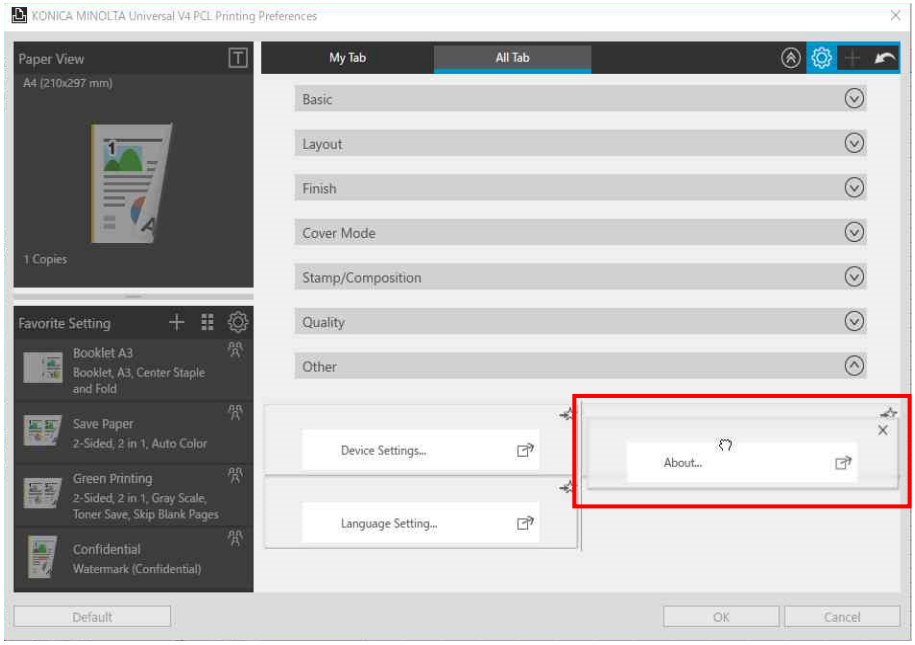

Figure 5.3-9 Edit My Tab

② Entering My Tab mode. Move the dragged item to the place as your like.

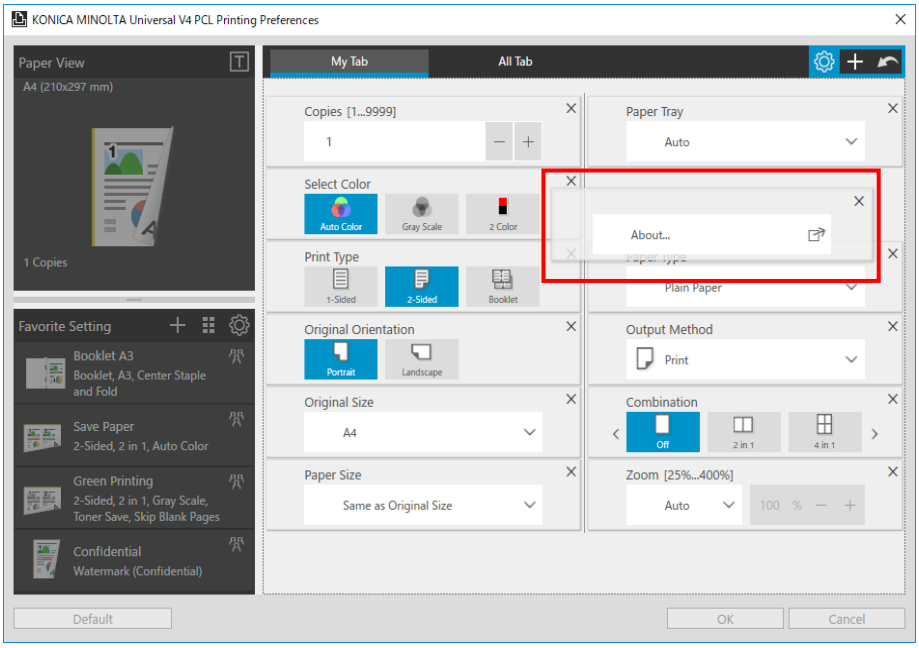

Figure 5.3-10 Edit My Tab

5.3.2. Deleting My Tab

1. Entering edit My Tab mode. Click the［×］icon of the selected item. Delete the selected item from My Tab.

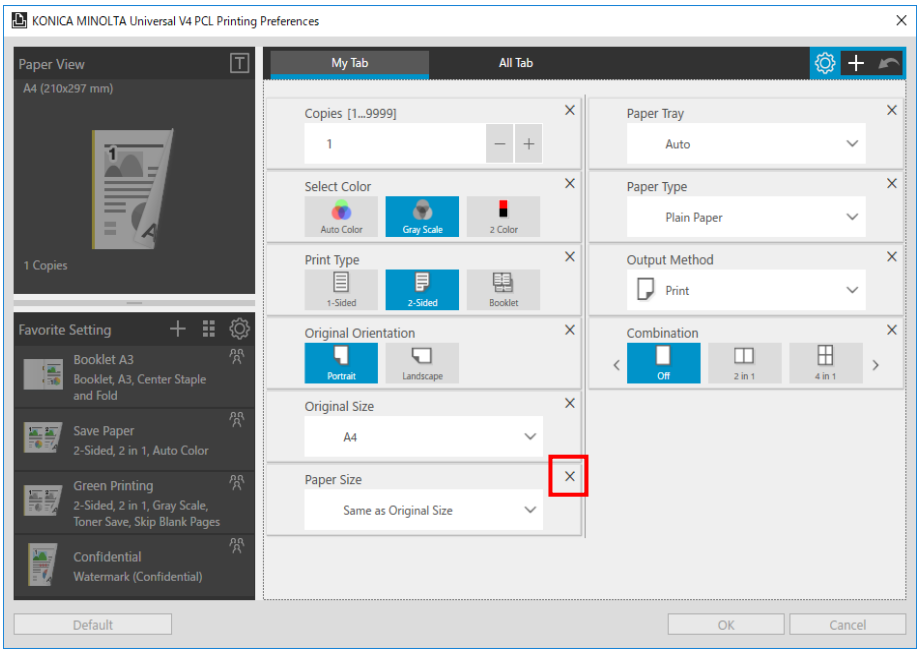

Figure 5.3-11 Edit My Tab

5.3.3. Moving My Tab

1. Entering edit My Tab mode. Drag the selected item in My Tab. Move the place of the item left/right/up/down.

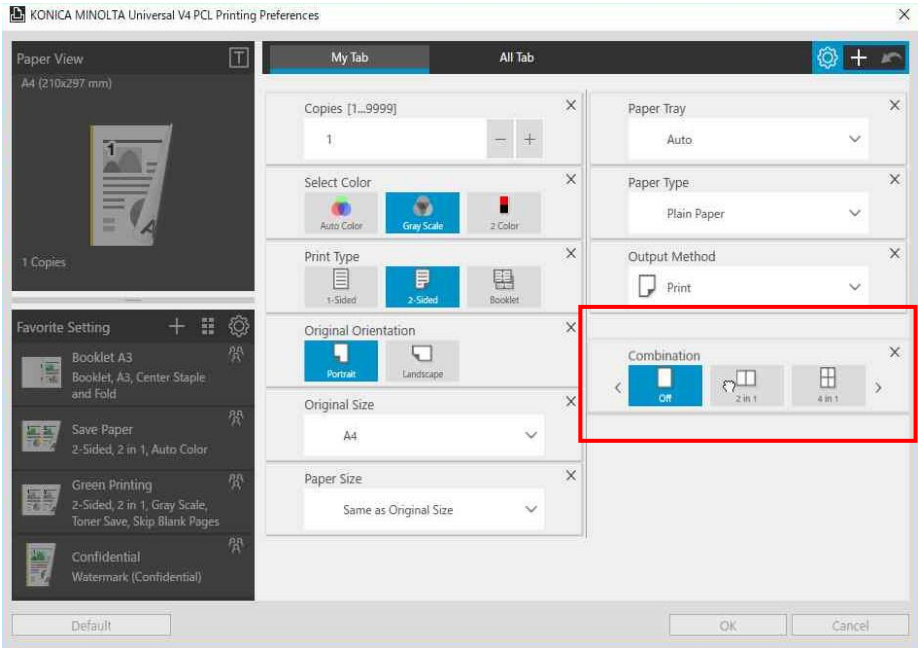

Figure 5.3-12 Edit My Tab

5.4. Adding Favorite Setting

According to the following steps, you can add the print settings into the Favorite.

1. Open the Printing Preferences for the desktop applications and make print settings.
2. Click the "+" icon in the Favorite Setting area.

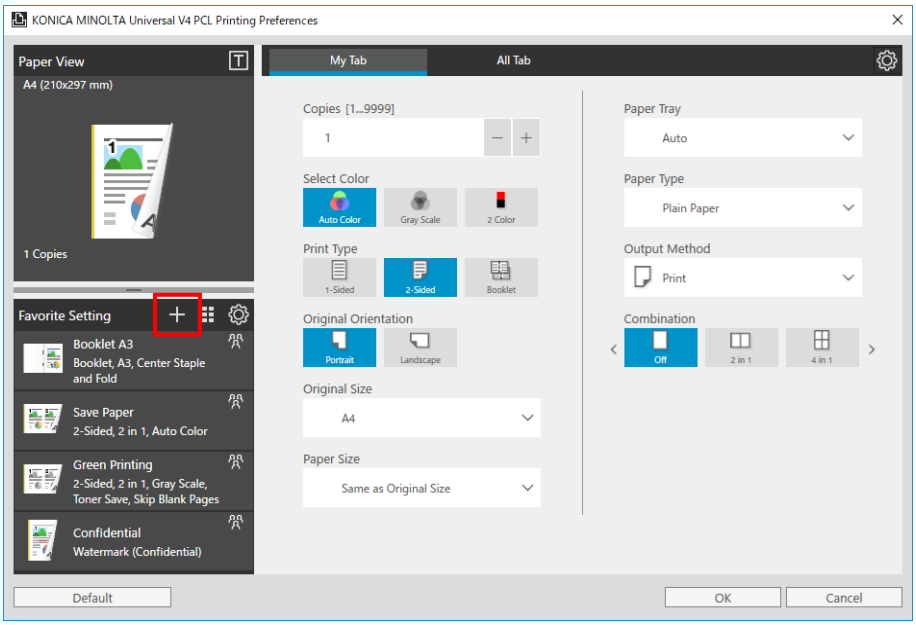

Figure 5.4-1 Printing Preferences for the desktop applications –Favorite

3. The current printing settings have been added into the Favorite. The name and comment are default and can be modified by clicking 2 times.

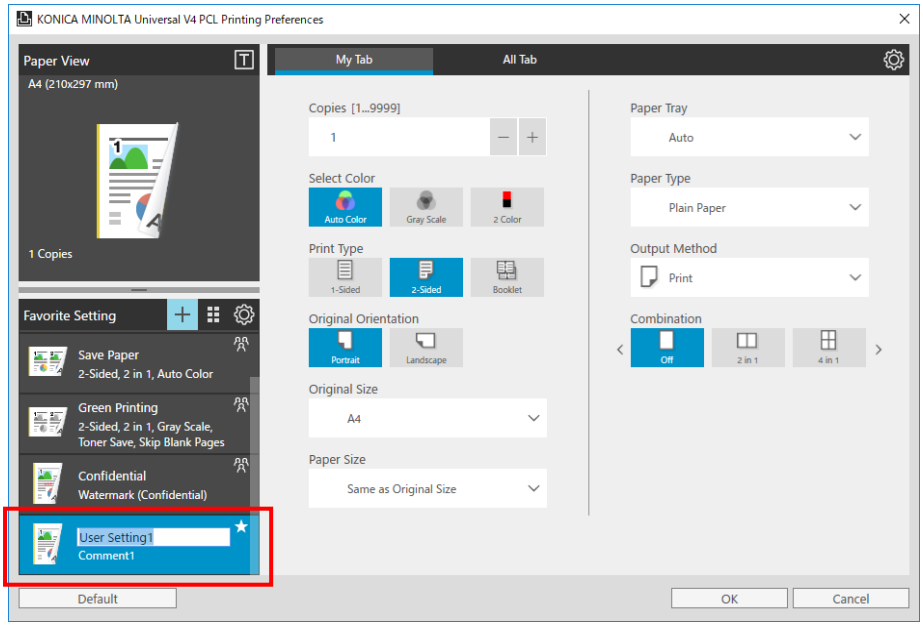

Figure 5.4-2 Add Favorite Setting

4. Click "OK" button on the print setting. After the screen is closed, the added Favorite will be saved.

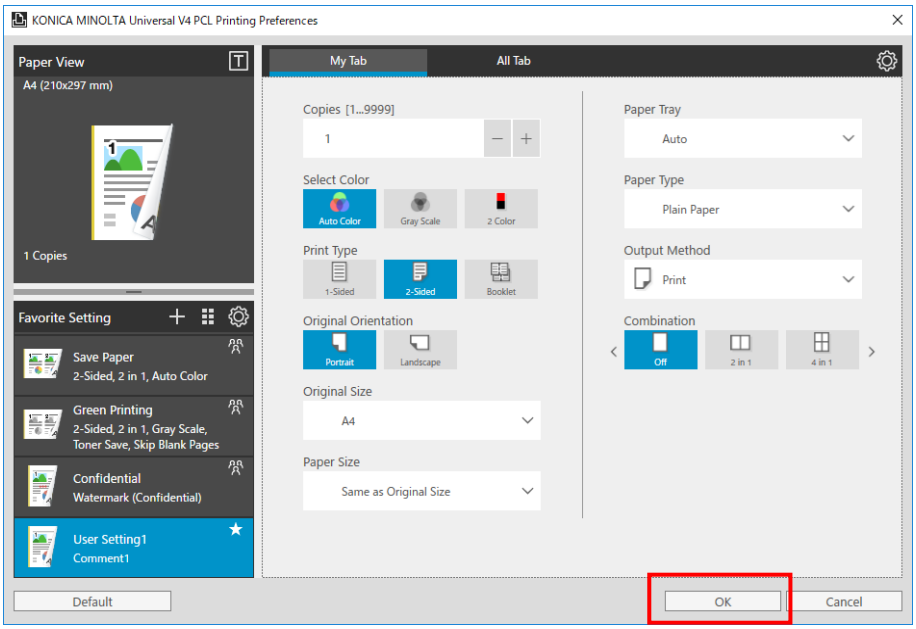

Figure 5.4-3 Printing Preferences for the desktop applications –Favorite

5.5. Editing Favorite Setting

1. Open the Printing Preferences for the desktop applications and click the gear icon in the Favorite Setting area.

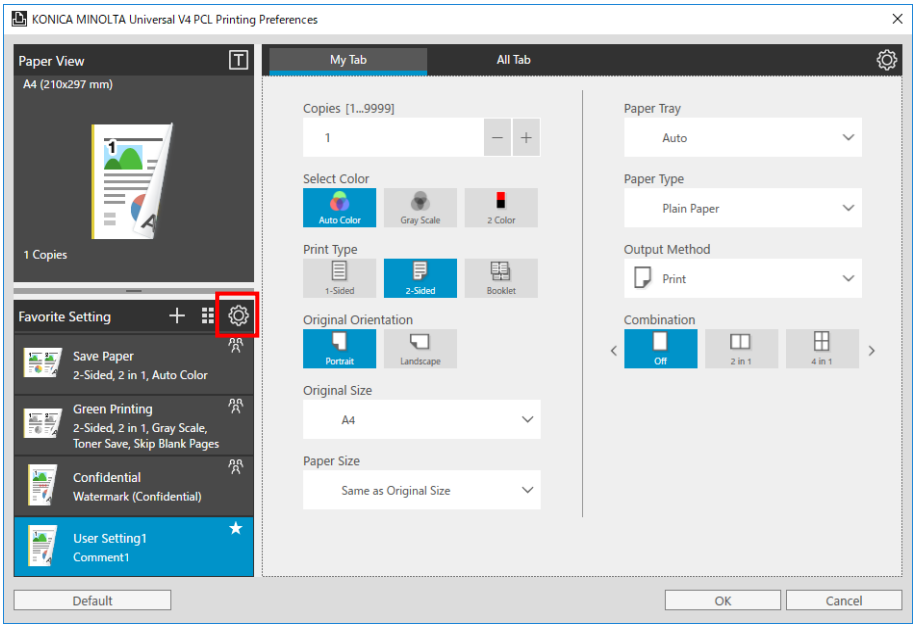

Figure 5.5-1 Printing Preferences for the desktop applications – My Tab

2. Entering the Favorite Setting edit mode, you can delete, edit print setting and change configures.

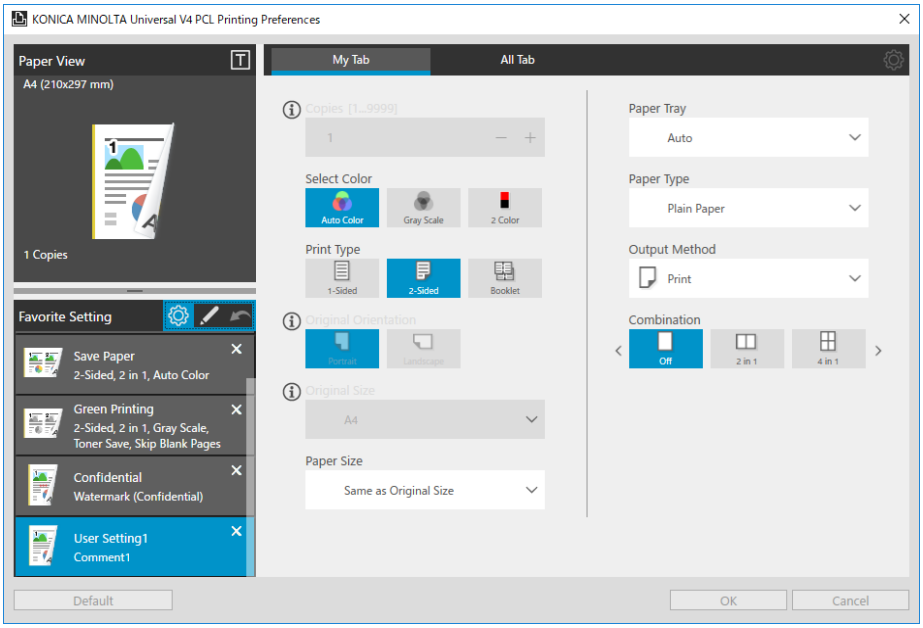

Figure 5.5-2 Favorite Setting

3. Click the gear icon again to save the edited content and end the edit mode of the Favorite Setting.

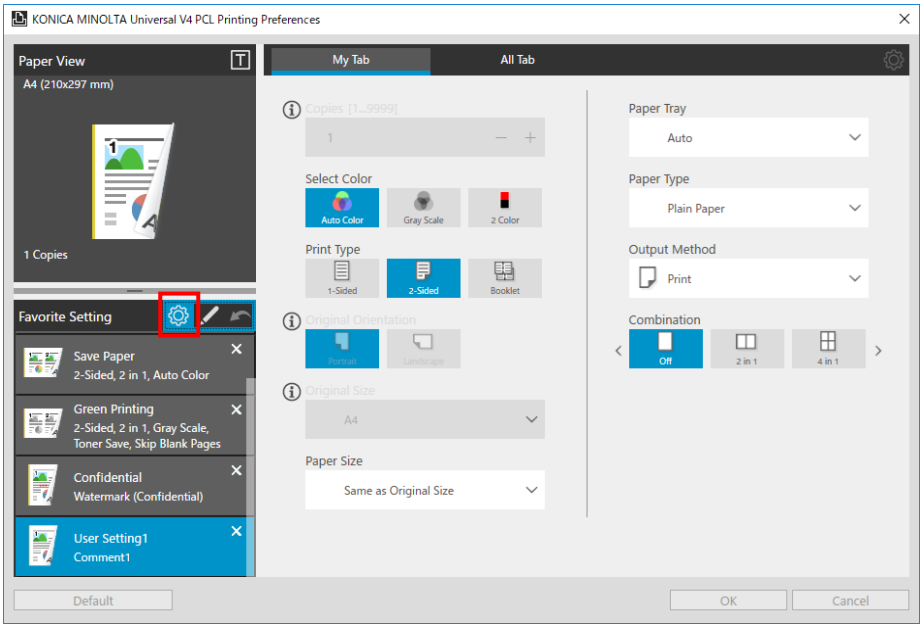

Figure 5.5-3 Favorite Setting

4. Click "OK" button on the print setting. After the screen is closed, the added Favorite will be saved.

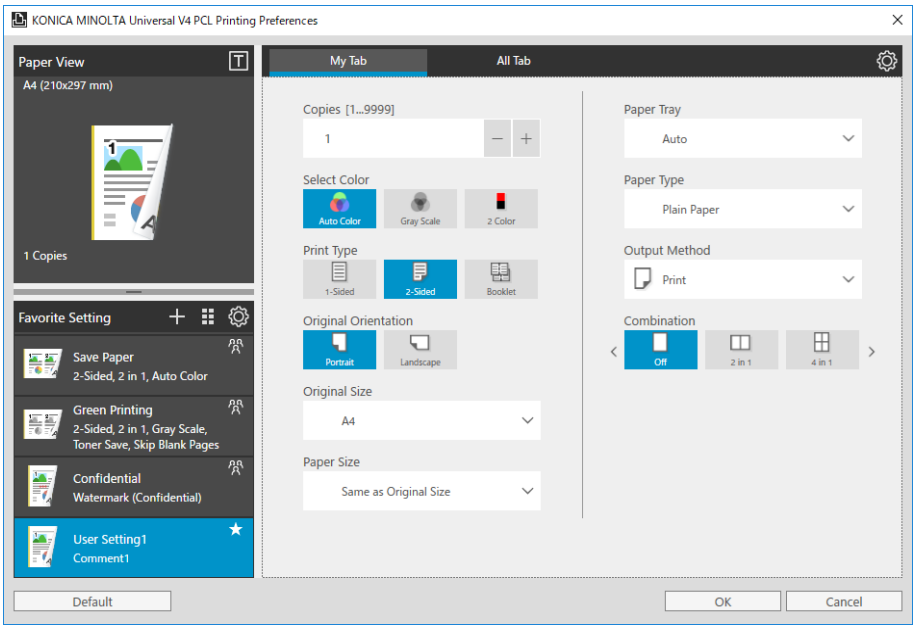

Figure 5.5-4 Favorite Setting

5.5.1. Deleting Favorite Setting

1. Entering edit Favorite Setting mode. Click the [×] icon of the selected Favorite. Delete the selected Favorite from Favorite Setting.

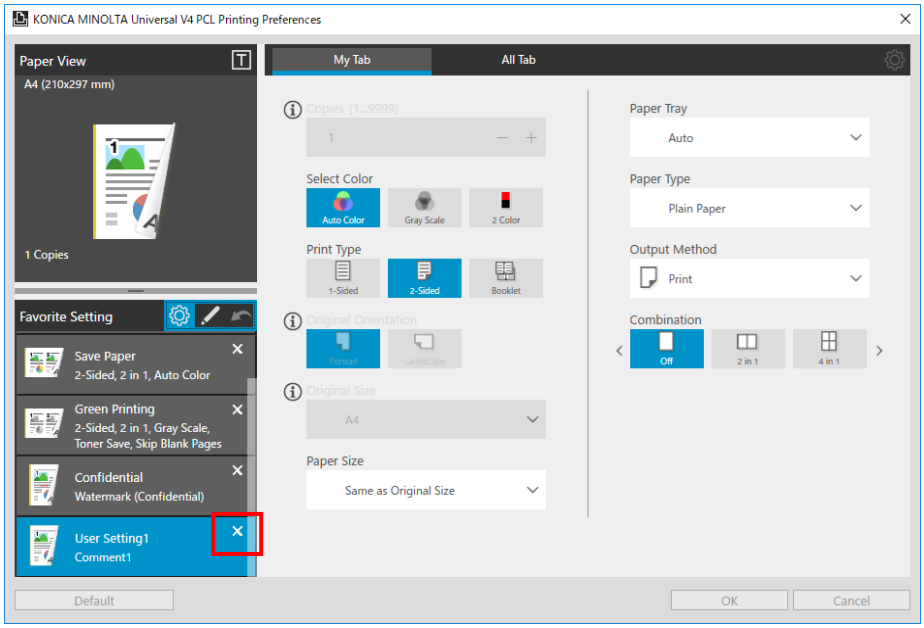

Figure 5.5-5 Favorite Setting

5.5.2. Moving Favorite Setting

1. Entering edit Favorite Setting mode. Drag the Favorite to move, moving the Favorite display position to the top / bottom.

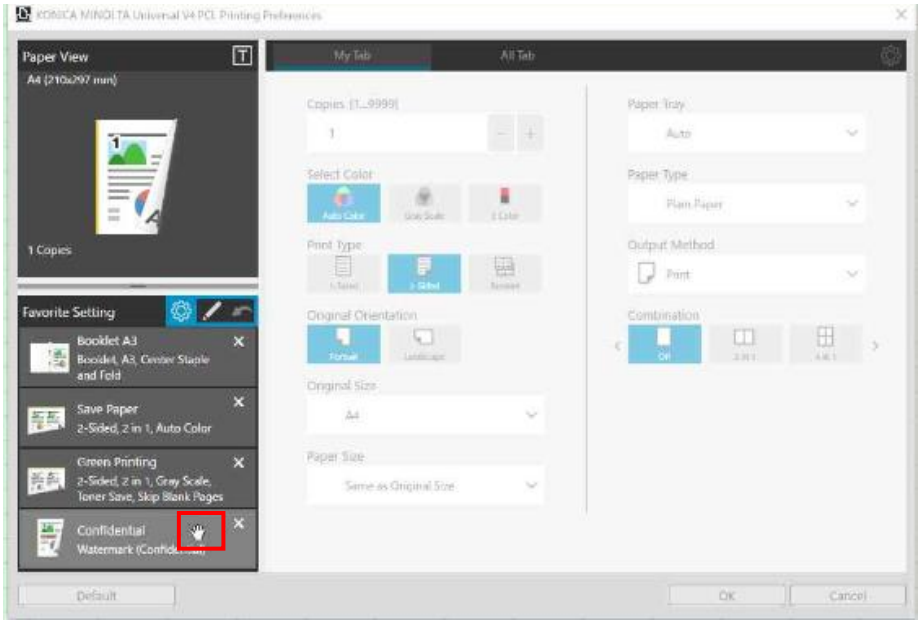

Figure 5.5-6 Favorite Setting

5.5.3. Editing Favorite Print Setting

1. Entering the Favorite Setting edit mode, after selecting one of the Favorite, the printed setting in the Favorite on the right side is reflected.

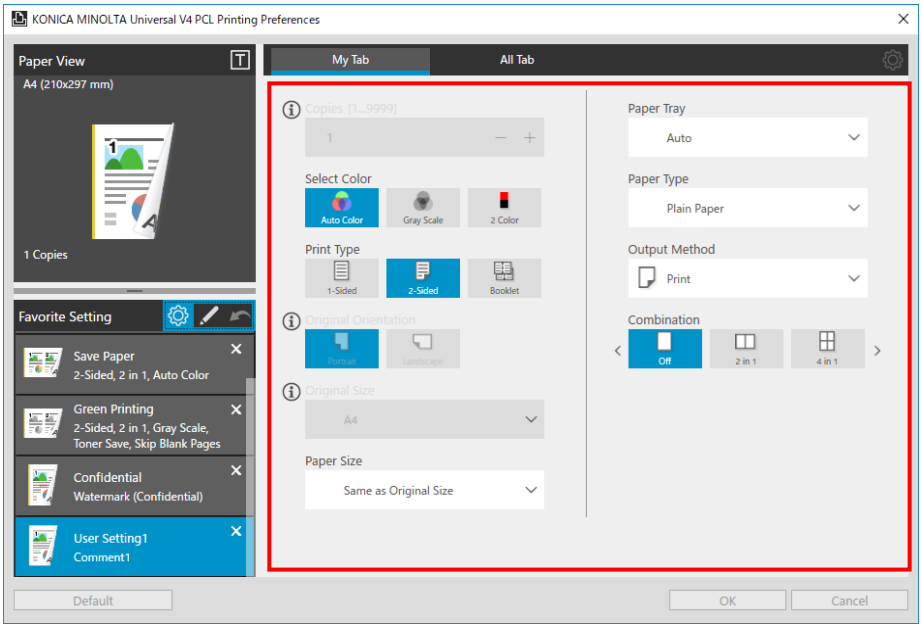

Figure 5.5-7 Printing Preferences for the desktop applications –Favorite

2. Select the favorite you want to edit, and if you have a print setting editing, the favorite icon shows the frame in the edit.
※The preset favorite cannot be edited.

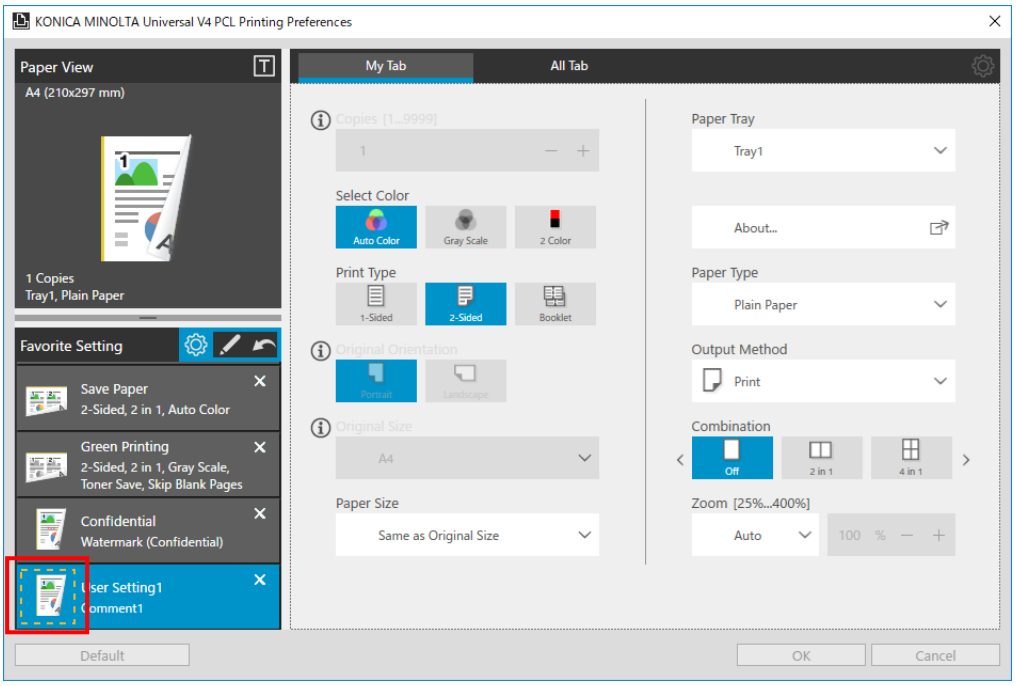

Figure 5.5-8 Favorite Setting

3. The edit information will be update by ending the Edit mode.

5.5.4. Edit Favorite Setting

1. Entering the Favorite Setting edit mode. Click the pencil icon in the Favorite Setting screen.

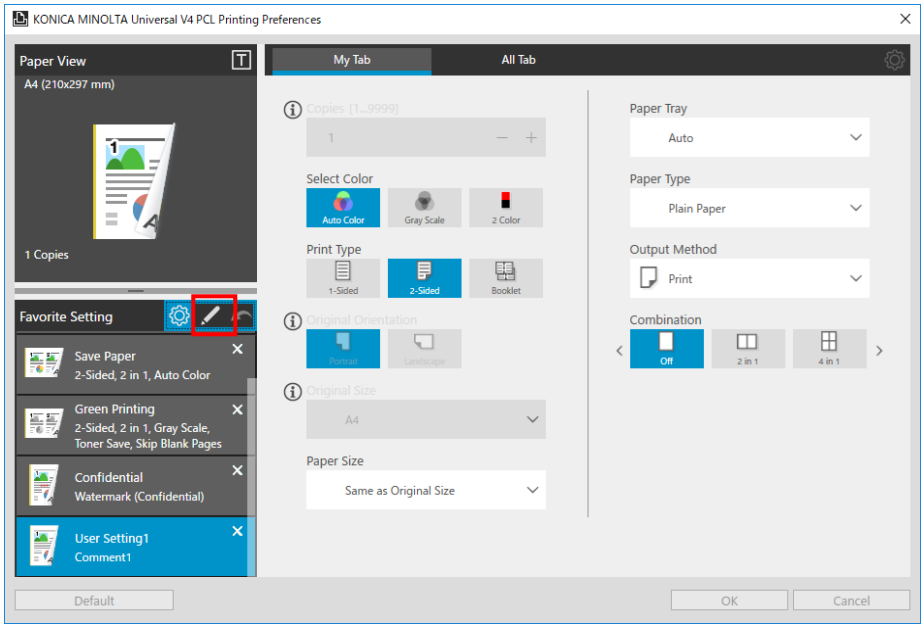

Figure 5.5-9 Favorite Setting

2. Edit Favorite Setting dialog box is displayed.

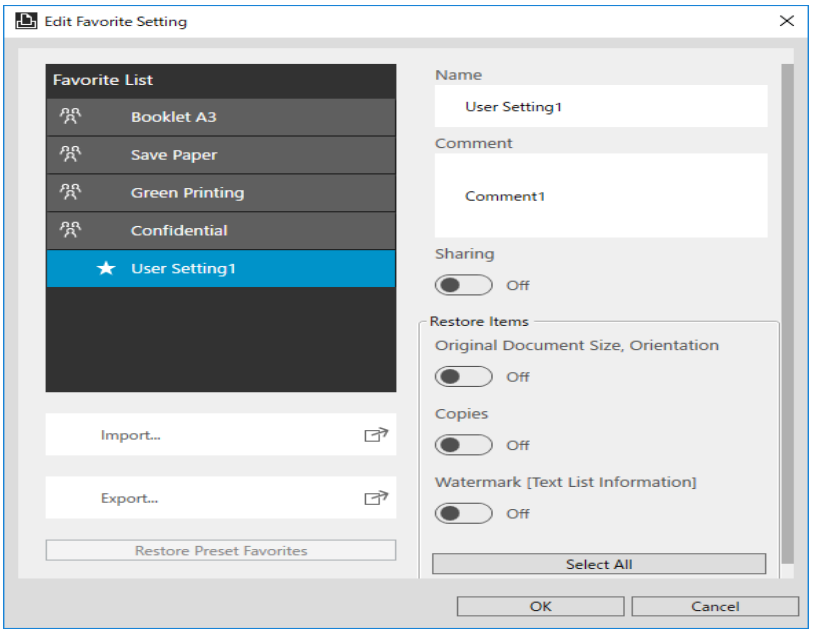

Figure 5.5-10 Edit Favorite Setting

The descriptions of the settings in Edit Favorite Setting dialog box are described below.

Parameter	Description
Favorite List	Display the saved favorite settings in list.
Import	Read the favorite settings information in a saved file and add it to the Favorite Setting List.
Export	Save the favorite setting selected in the Favorite List as a file.
Restore Preset Favorites	Restore all hidden preset favorites and display the favorite settings in list.
Name	Enter the name of the selected item in the Favorite List
Comment	Enter the comment of the selected item in the Favorite List
Sharing	Specify the sharing setting of the selected item in the Favorite List
Restore Items	Set whether the information saved by the following [Favorite] is reflected on the UI when Restore Items for [Favorite]
Original Document Size, Orientation	Set the items of [Document Size] [Orientation] in [Basic]
Copies	Set Copies of [Basic]
Watermark [Text List Information]	Set [Watermark] list of Stamp/Composition.
Restore Common Settings	Set already sharing watermark. ※The state which display when watermark List Information is on
Select All	Select the Restore items of Select All

Export...		

5.6.2. Setting method

Open the Admin Configuration dialog from the Printing Preferences for the desktop applications by the following procedures.

1. Open the Printing Preferences for the desktop applications.
2. Click “All Tab” .

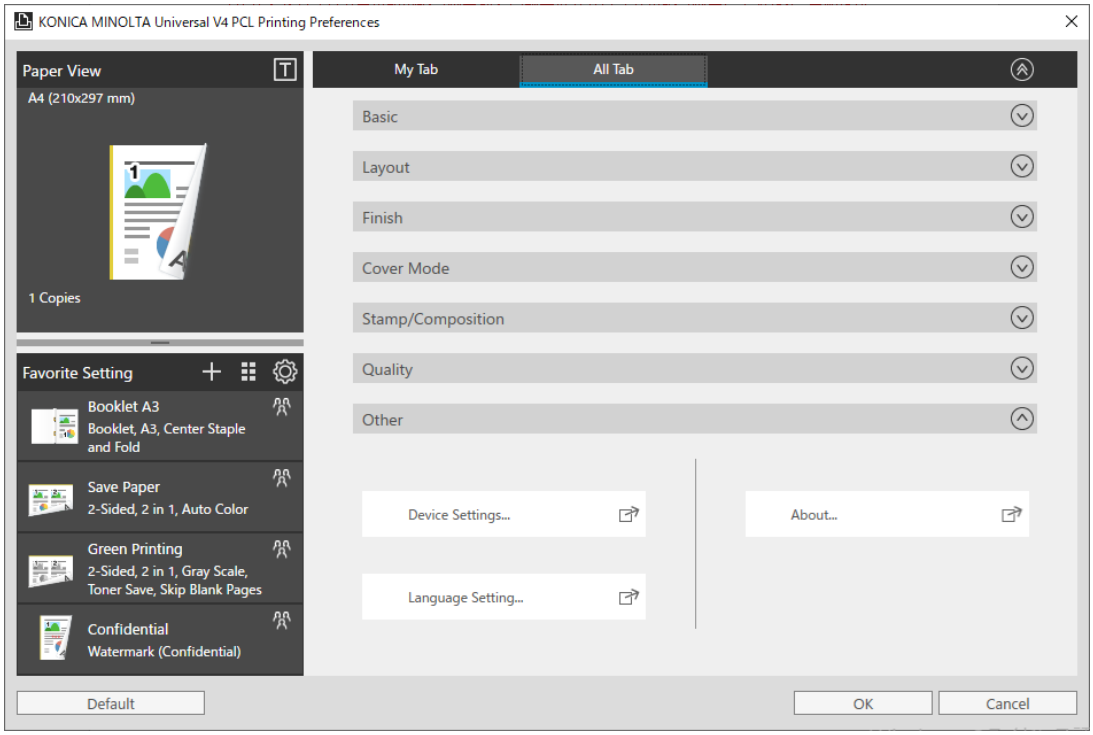

図 5.6-1 Printing Preferences for the desktop applications – All Tab

3. Click “Device Settings…” button in the “Other” group.
4. Confirmation dialog box will be displayed. Select “Yes” or “No”.

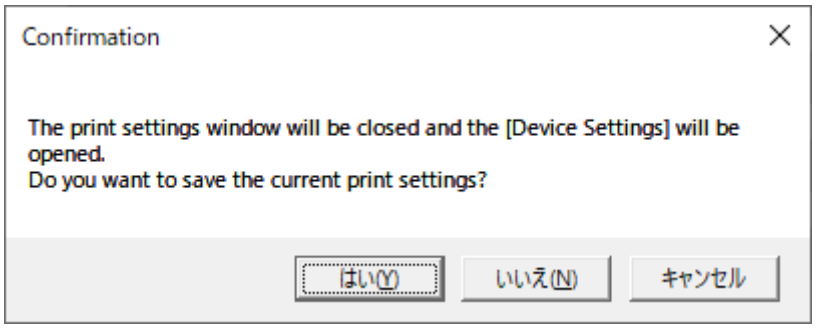

図 5.6-2 Confirmation

5. Device Settings dialog box is displayed. Click “Administrator Customize...”.

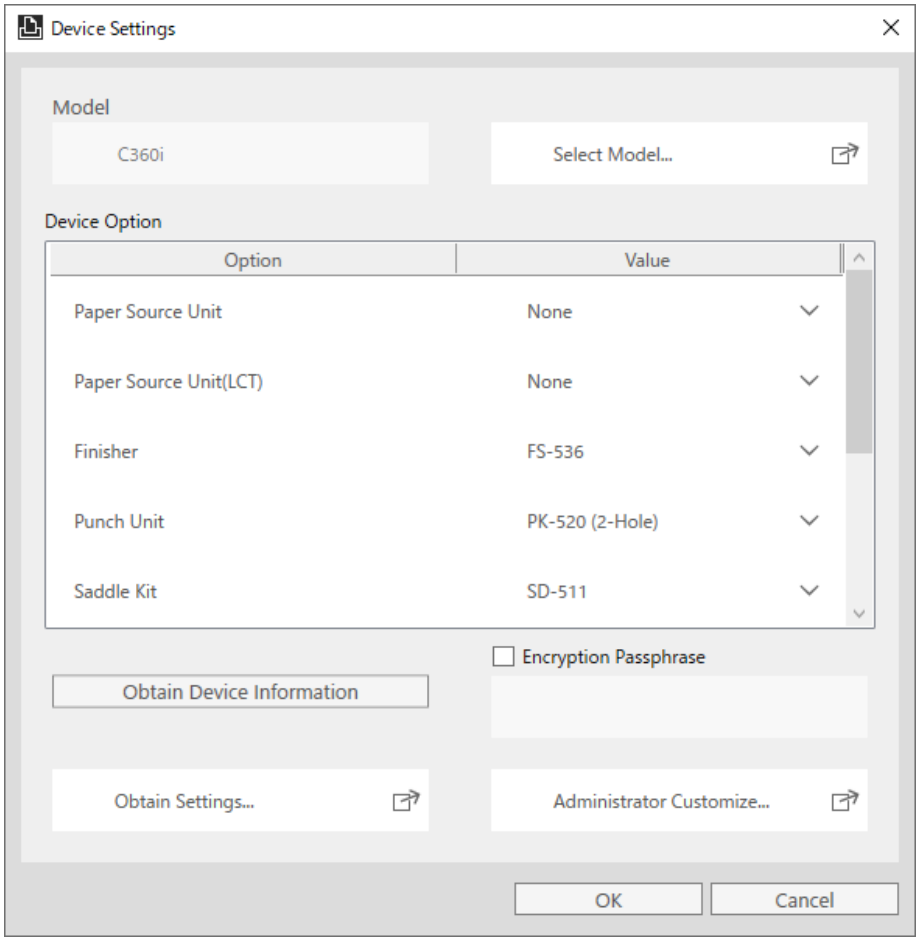

図 5.6-3 Device Settings dialog box

6. Admin Configuration dialog will be displayed. Select the method of customize print settings in the left column. Select “Select default setting” if you want to specify the default value, or select “Lock setting” if you want to fix the value.

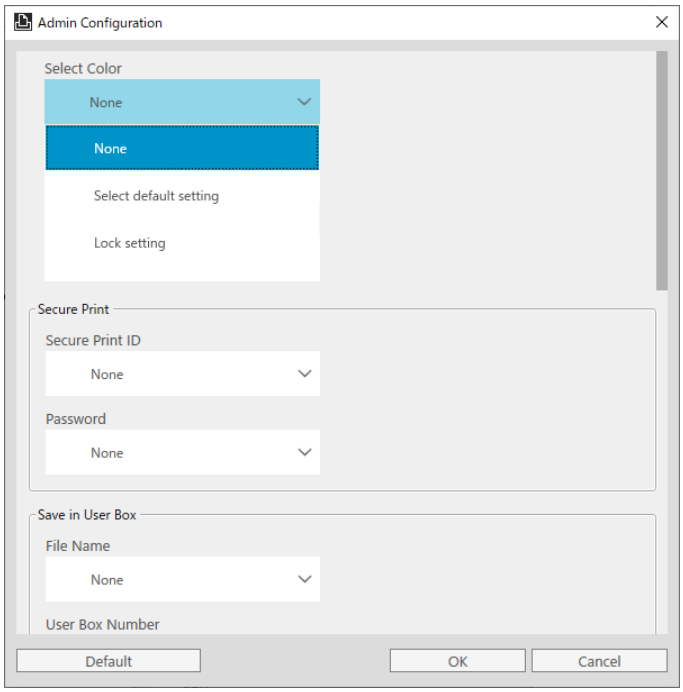

図 5.6-2 Admin Configuration dialog box 1

7. Next, select the value of the feature in the right column.

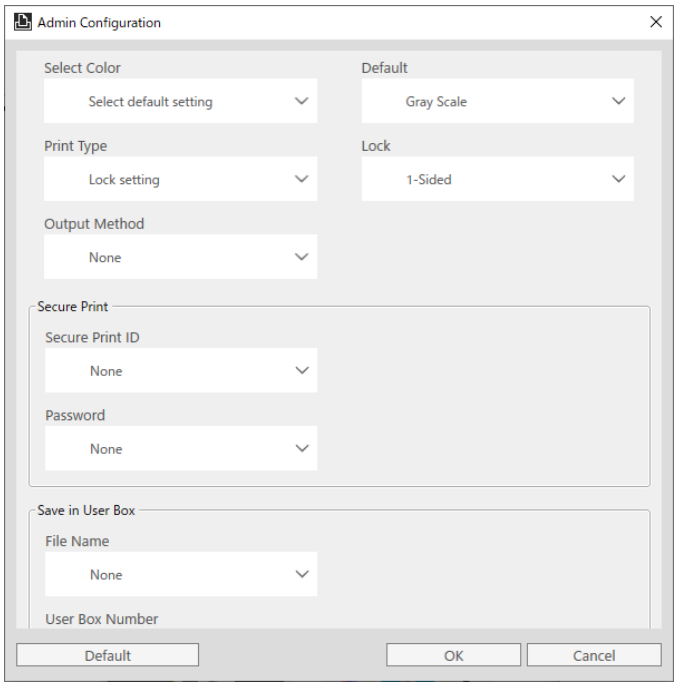

図 5.6-5 Admin Configuration dialog box 2

8. In the above example, Gray Scale has been selected to the default value of Select Color, and Print Type has been locked to 1-Sided. Printing Preferences are as follows.

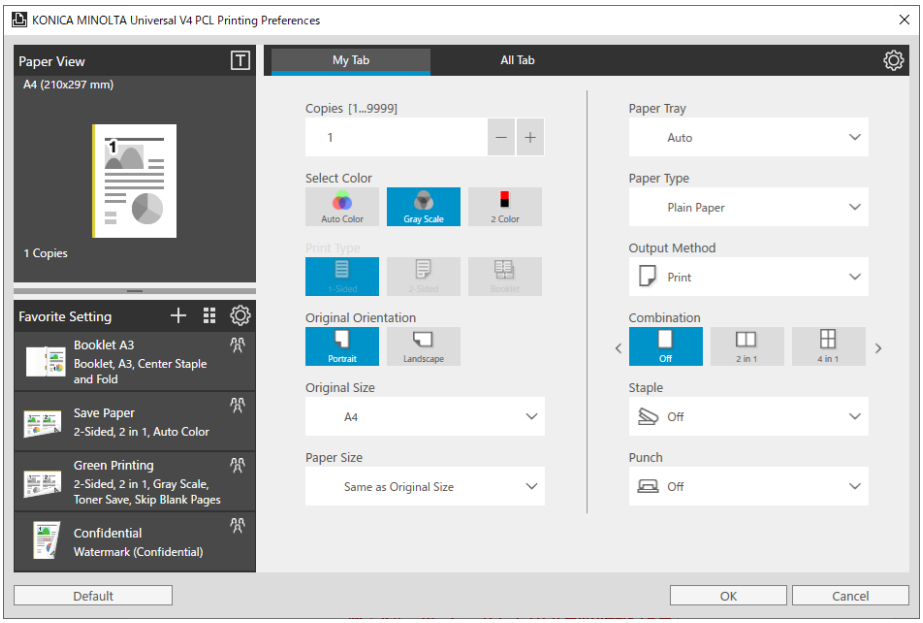

図 5.6-6 Printing Preferences for the desktop applications

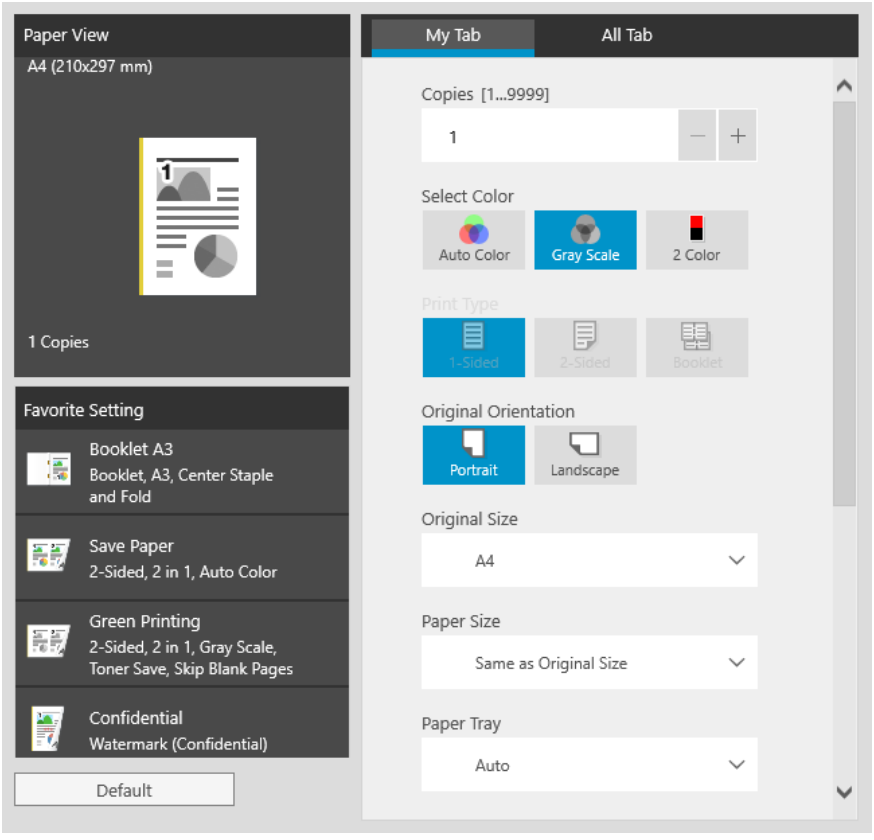

図 5.6-7 Printing Preferences for the Windows Store Apps

5.6.3. Export and import the setting of Administrator Customization

It is possible to export the settings of Administrator Customization to file (.KAC file) and import to another Print Queue.

Method of export

1. Click “Export...”.

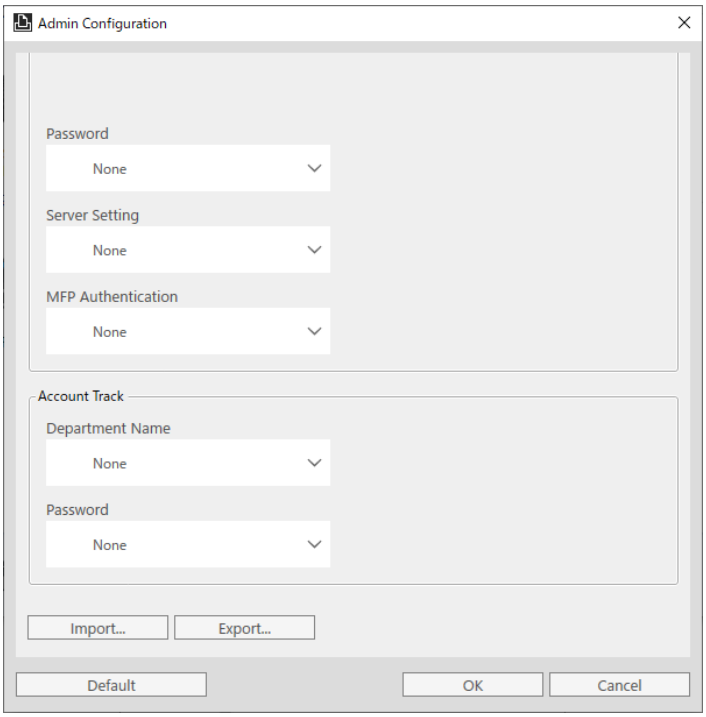

図 5.6-8 Export Selection

2. Specify location and file name, and then click “Save”.

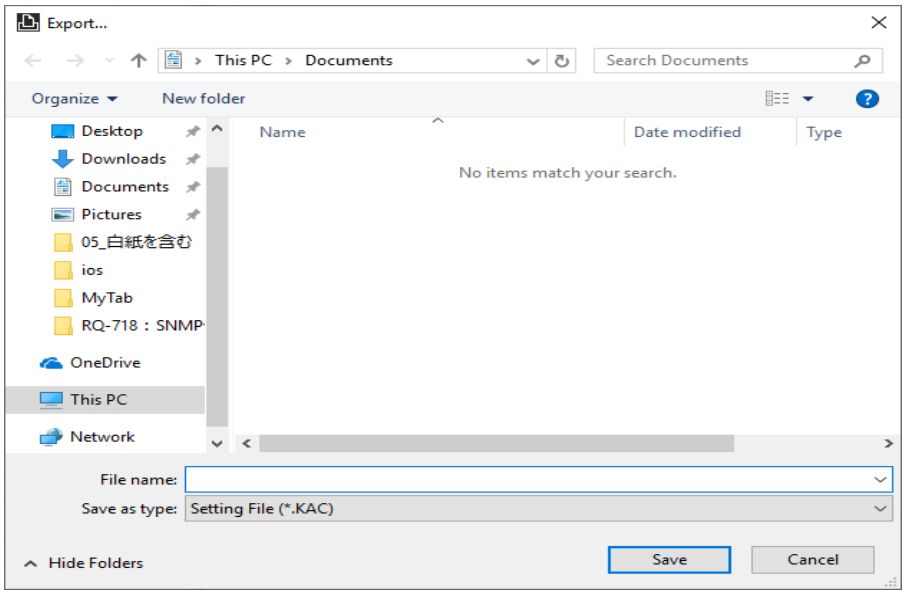

図 5.6-9 Export Destination Selection

Method of import

1. Click “Import...”.

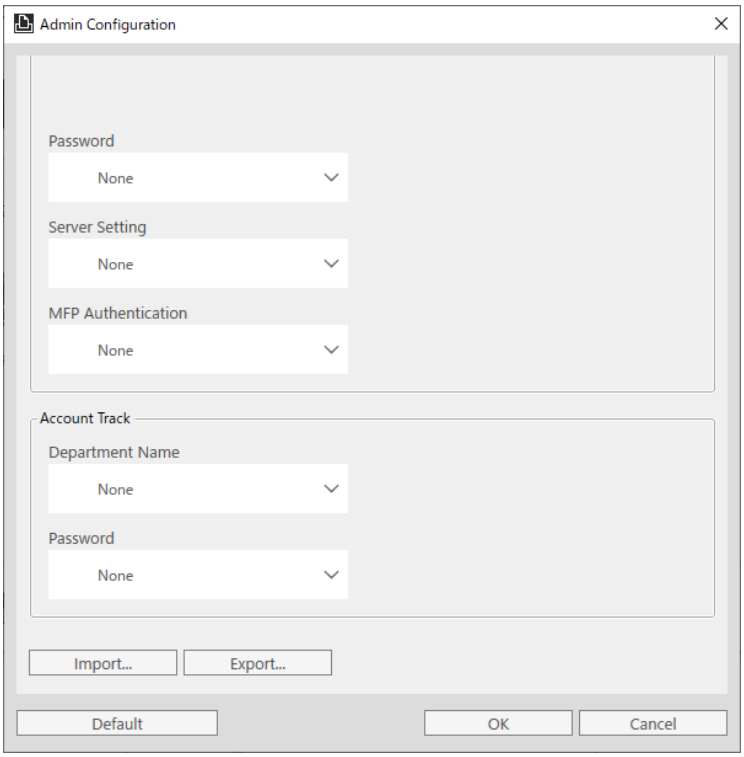

図 5.6-10 Import selection

3. Select the .KAC to import and then click “Open”.
